ABOUT THE FUND

AWAY™ seeks investment results that generally correlate (before fees and expenses) to the total return performance of the Prime Travel Technology Index NTR. AWAY™ tracks a portfolio of companies in the "Travel Technology Business" that use internet technology to enable travel-related services such as bookings, ride sharing, price comparison, and travel advice.

REASONS TO INVEST

- 1 The first ETF to give investors direct access to technology-focused companies within the global travel and tourism industry.¹
- 2 66% of millennials book their trip using a smartphone. 74% use it to research.²
- 3 Global travel and tourism was forecast to contribute 9.5 trillion USD to global gross domestic product in 2023.³

Fund inception date: 02/12/2020. The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month-end visit AmplifyETFs.com/AWAY. Brokerage commissions will reduce returns. A fund's NAV is the sum of all its assets less any liabilities, divided by the number of shares outstanding. The closing price or market price is the most recent price at which the fund was traded. Indexes are unmanaged and it's not possible to invest directly in an index. The Prime Travel Tech Index measures the performance of travel technology companies.

Carefully consider the Fund's investment objectives, risks, charges, and expenses before investing. This and other information can be found in the Fund's statutory and summary prospectuses, which may be obtained at amplifyetfs.com. Read the prospectus carefully before investing.

Prior to 1/29/24, the Amplify Travel Tech ETF was formerly the ETFMG Travel Tech ETF.

Investing involves risk, including loss of principal. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Narrowly focused investments typically exhibit higher volatility. Companies in the technology field, including

companies in the computers, telecommunications and electronics industries, face intense competition, which may have an adverse effect on profit margins. Technology companies may have limited product lines, markets, financial resources or personnel. The products of technology companies may face obsolescence due to rapid technological developments and frequent new product introduction, and such companies may face unpredictable changes in growth rates, competition for the services of qualified personnel and competition from foreign competitors with lower production costs. Companies in the technology sector are heavily dependent on patent and intellectual property rights. The loss or impairment of these rights may adversely affect the profitability of these companies.

Amplify Investments LLC is the Investment Adviser to

the Fund, and Toroso Investments, LLC serves as the Investment Sub-Adviser. Amplify ETFs are distributed by Foreside Fund Services, LLC.
