ABOUT THE FUND

ETHO[®] ETF seeks investment results that generally correlate (before fees and expenses) to the total return performance of the Etho Climate Leadership Index – US.

REASONS TO INVEST

- 1 Pioneering the Future:** The first diversified, fossil-free, sustainable, and responsible U.S. ETF.¹
- 2 Raising the Bar:** Employing a rigorous 5-level positive and negative screening process to identify companies that align with high ESG guidelines, demonstrate lower pollution, and showcase strong operational efficiency compared to their sector and industry counterparts.
- 3 The Future in Mind:** Cutting-edge investment methodology developed by climate science and supply chain sustainability professionals at Stanford University.

Fund inception date: 11/18/2015. The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month-end visit AmplifyETFs.com/ETHO. Brokerage commissions will reduce returns. A fund's NAV is the sum of all its assets less any liabilities, divided by the number of shares outstanding. The closing price or market price is the most recent price at which the fund was traded.

SECTOR ALLOCATION

- Information Technology (21.89%)
- Financials (19.66%)
- Consumer Discretionary (13.87%)
- Industrials (12.76%)
- Health Care (10.95%)
- Communication Services (6.67%)
- Real Estate (5.98%)
- Consumer Staples (4.10%)
- Utilities (2.06%)
- Materials (1.56%)

Carefully consider the Fund's investment objectives, risks, charges, and expenses before investing. This and other information can be found in the Fund's statutory and summary prospectuses, which may be obtained at amplifyetfs.com. Read the prospectus carefully before investing.

Prior to 1/29/24, the Amplify Etho® Climate Leadership U.S. ETF was formerly the Etho® Climate Leadership U.S. ETF.

Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Brokerage commissions will reduce returns.

Narrowly focused investments typically exhibit higher volatility. Because the Fund generally does not invest in (i) companies in the energy sector, (ii) companies in the tobacco, aerospace and defense industries, and (iii) companies in the gambling, gold and silver sub-industries, the Fund may underperform the broader equity market to the extent that such companies have above-average performance. Smaller companies may be more vulnerable to adverse business or economic events than larger, more established companies, and may underperform other segments of the market or the equity market as a whole. The Fund's return may not match or achieve a high degree of correlation with the return of the Index. To the extent the Fund utilizes a sampling approach, it may experience tracking error to a greater extent than if the Fund had sought to

replicate.
