GENERAL DESCRIPTION OF THE TRUST AND THE FUND

The Trust was organized as a Massachusetts business trust on January 6, 2015 and is authorized to issue an unlimited number of shares in one or more series. The Trust is an open-end management investment company, registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Trust currently offers shares in 15 separate series, including the Fund, a non-diversified series.

This SAI relates to the Fund. The Fund, as a series of the Trust, represents a beneficial interest in a separate portfolio of securities and other assets, with its own objective and policies.

The Board of Trustees of the Trust (the “Board of Trustees” or the “Trustees”) has the right to establish additional series in the future, to determine the preferences, voting powers, rights and privileges thereof and to modify such preferences, voting powers, rights and privileges without shareholder approval. Shares of any series may also be divided into one or more classes at the discretion of the Trustees.

The Trust or any series or class thereof may be terminated at any time by the Board of Trustees upon written notice to the shareholders.

Each share has one vote with respect to matters upon which a shareholder vote is required, consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all series of the Trust vote together as a single class except as otherwise required by the 1940 Act, or if the matter being voted on affects only a particular series; and, if a matter affects a particular series differently from other series, the shares of that series will vote separately on such matter. The Trust’s Declaration of Trust (the “Declaration”) requires a shareholder vote only on those matters where the 1940 Act requires a vote of shareholders and otherwise permits the Trustees to take actions without seeking the consent of shareholders. For example, the Declaration gives the Trustees broad authority to approve reorganizations between the Fund and another entity, such as another exchange-traded fund, or the sale of all or substantially all of the Fund’s assets, or the termination of the Trust or the Fund without shareholder approval if the 1940 Act would not require such approval.

The Declaration provides that by becoming a shareholder of the Fund, each shareholder shall be expressly held to have agreed to be bound by the provisions of the Declaration and to any By-laws adopted by the Fund. The provisions of the Declaration state that shareholders have no rights, privileges, claims or remedies under any contract or agreement entered into by the Trust or the Fund with any service provider or other agent to or contractor with the Trust or the Fund including, without limitation, any third party beneficiary rights. In addition, under the Declaration, shareholders do not have appraisal rights with respect to their shares and, except as the Trustees may determine from time to time, shall have no right to acquire, purchase or subscribe for any shares or securities of the Fund that it may issue or sell, or have any preference, preemptive, conversion or exchange rights. The provisions of the Declaration, any By-laws of the Fund and any contract or agreement entered into by the Trust or the Fund governed by applicable state law do not affect the rights of any shareholder under any provision of the Securities Act of 1933, as amended (the “1933 Act”), the Securities Exchange Act of 1934, as amended (the “1934 Act”),

or the 1940 Act, or any rule, regulation or order of the Securities Exchange Commission thereunder.

The Declaration may, except in limited circumstances, be amended by the Trustees in any respect without a shareholder vote. The Declaration provides that the Trustees may establish the number of Trustees and that vacancies on the Board of Trustees may be filled by the remaining Trustees, except when election of Trustees by the shareholders is required under the 1940 Act. Trustees are then elected by a plurality of votes cast by shareholders at a meeting at which a quorum is present. The Declaration also provides that Trustees may be removed, with or without cause, by a vote of shareholders holding at least two-thirds of the voting power of the Trust, or by a vote of two-thirds of the remaining Trustees. The provisions of the Declaration relating to the election and removal of Trustees may not be amended without the approval of two-thirds of the Trustees.

The holders of Fund shares are required to disclose information on direct or indirect ownership of Fund shares as may be required to comply with various laws applicable to the Fund or as the Trustees may determine, and ownership of Fund shares may be disclosed by the Fund if so required by law or regulation. In addition, pursuant to the Declaration, the Trustees may, in their discretion, require the Trust to redeem shares held by any shareholder for any reason under terms set by the Trustees.

The Declaration provides a detailed process for the bringing of derivative actions by shareholders, and provides that actions that are derivative in nature may not be brought directly, in order to permit legitimate inquiries and claims while avoiding the time, expense, distraction and other harm that can be caused to the Fund or its shareholders as a result of spurious shareholder claims, demands and derivative actions. Prior to bringing a derivative action, a demand must first be made on the Trustees. The Declaration details various information, certifications, undertakings and acknowledgements that must be included in the demand. Following receipt of the demand, the Trustees have a period of 90 days, which may be extended by an additional 60 days, to consider the demand. If a majority of the Trustees who are considered independent for the purposes of considering the demand determine that maintaining the suit would not be in the best interests of the Fund, the Trustees are required to reject the demand and the complaining shareholder may not proceed with the derivative action unless the shareholder is able to sustain the burden of proof to a court that the decision of the Trustees not to pursue the requested action was not a good faith exercise of their business judgment on behalf of the Fund. In making such a determination, a Trustee is not considered to have a personal financial interest by virtue of being compensated for his or her services as a Trustee.

If a demand is rejected as set forth above, the complaining shareholder will be responsible for the costs and expenses (including attorneys' fees) incurred by the Fund in connection with the consideration of the demand under a number of circumstances. In addition, if a court determines that a derivative action was made without reasonable cause or for an improper purpose, or if a derivative or direct action is dismissed on the basis of a failure to comply with the procedural provisions relating to shareholder actions as set forth in the Declaration, or if a direct action is dismissed by a court for failure to state a claim, the shareholder bringing the action may be responsible for the Fund's costs, including attorneys' fees.

The provisions of the Declaration provide that any direct or derivative action commenced by a shareholder must be brought only in the U.S. District Court for the District of Massachusetts (Boston Division) or if any such action may not be brought in that court, then in the Business Litigation Session of Suffolk Superior Court in Massachusetts (the “*Chosen Courts*”). Except as prohibited by applicable law, if a shareholder commences an applicable action in a court other than a Chosen Court, then such shareholder may be obligated to reimburse the Fund and any applicable Trustee or officer of the Fund made party to such proceeding for the costs and expenses (including attorneys’ fees) incurred in connection with any successful motion to dismiss, stay or transfer of the action. The Declaration also provides that any shareholder bringing an action against the Fund waives the right to trial by jury to the fullest extent permitted by law.

The Declaration provides that no provision of the Declaration may require a waiver of compliance with any provision of the 1933 Act, the 1934 Act or the 1940 Act, or any rule, regulation or order of the Securities and Exchange Commission thereunder. The provisions of the Declaration are severable, and if the Trustees determine, with the advice of counsel, that any such provision, in whole or in part, conflict with applicable laws and regulations, the conflicting provisions, or part or parts thereof, will be deemed to be not part of the Declaration (provided, that any such determination will not render any of the remaining provisions invalid or improper).

The Trust is not required to and does not intend to hold annual meetings of shareholders.

Under Massachusetts law applicable to Massachusetts business trusts, shareholders of such a trust may, under certain circumstances, be held personally liable as partners for its obligations. However, the Declaration contains an express disclaimer of shareholder liability for acts or obligations of the Trust and requires that notice of this disclaimer be given in each agreement, obligation or instrument entered into or executed by the Trust or the Trustees. The Declaration further provides for indemnification out of the assets and property of the Trust for all losses and expenses of any shareholder held personally liable for the obligations of the Trust. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which both inadequate insurance existed and the Trust or the Fund itself was unable to meet its obligations.

The Declaration further provides that a Trustee acting in his or her capacity as Trustee is not personally liable to any person other than the Trust or its series in connection with the affairs of the Trust or for any act, omission, or obligation of the Trust. The Declaration requires the Trust to indemnify any persons who are or who have been Trustees, officers or employees of the Trust for any liability for actions or failure to act except to the extent prohibited by applicable federal law. In making any determination as to whether any person is entitled to the advancement of expenses in connection with a claim for which indemnification is sought, such person is entitled to a rebuttable presumption that he or she did not engage in conduct for which indemnification is not available. The Declaration provides that any Trustee who serves as chair of the Board of Trustees or of a committee of the Board of Trustees, lead independent Trustee, or audit committee financial expert, or in any other similar capacity will not be subject to any greater standard of care or liability because of such position.

The Fund is advised by Amplify Investments LLC (the “*Adviser*” or “*Amplify Investments*”). Toroso Investments, LLC (the “*Sub-Adviser*”) serves as investment sub-adviser to the Fund.

The shares of the Fund list and principally trade on the NYSE Arca, Inc. (the “*Exchange*”). The shares will trade on the Exchange at market prices that may be below, at or above net asset value (“*NAV*”). ETFs, such as The Fund, do not sell or redeem individual shares of the Fund. Instead, The Fund offer, issue and redeem shares at NAV only in aggregations of a specified number of shares (each a “*Creation Unit*”). Financial entities known as “authorized participants” (which are discussed in greater detail below) have contractual arrangements with the Fund or the Distributor to purchase and redeem Fund shares directly with the Fund in Creation Units in exchange for the securities comprising the Fund and/or cash, or some combination thereof. Shares of the Fund are traded in the secondary market and elsewhere at market prices that may be at, above, or below the Fund’s NAV. Shares are only redeemable in Creation Units by authorized participants. Creation Units are typically a specified number of shares, generally 25,000 or multiples thereof, except in the event of the liquidation of the Fund, where the Trust may lower the number of Shares in a Creation Unit. An authorized participant that purchases a Creation Unit of Fund shares deposits with the Fund a “basket” of securities and other assets identified by the Fund that day, and then receives the Creation Unit of Fund shares in return for those assets. The redemption process is the reverse of the purchase process: the authorized participant redeems a Creation Unit of Fund shares for a basket of securities and other assets. The basket is generally representative of the Fund’s portfolio, and together with a cash balancing amount, it is equal to the NAV of the Fund shares comprising the Creation Unit. Pursuant to Rule 6c-11 of the 1940 Act, the Fund may utilize baskets that are not representative of the Fund’s portfolio. Such “custom baskets” are discussed in the section entitled “Creations and Redemptions of Creation Units.” Transaction fees and other costs associated with creations or redemptions that include cash may be higher than the transaction fees and other costs associated with in-kind creations or redemptions. In all cases, conditions with respect to creations and redemptions of shares and fees will be limited in accordance with the requirements of SEC rules and regulations applicable to management investment companies offering redeemable securities.

EXCHANGE LISTING AND TRADING

There can be no assurance that the requirements of the Exchange necessary to maintain the listing of shares of the Fund will continue to be met. The Exchange may, but is not required to, remove the shares of the Fund from listing if: (i) following the initial 12-month period beginning at the commencement of trading of the Fund, there are fewer than 50 beneficial owners of the shares of the Fund for 30 or more consecutive trading days; (ii) if applicable, the value of the Fund’s Index (as detailed and defined below) is no longer calculated or available; or (iii) such other event shall occur or condition exist that, in the opinion of the Exchange makes further dealings on the Exchange inadvisable. The Exchange will remove the shares of the Fund from listing and trading upon termination of the Fund.

As in the case of other stocks traded on the Exchange, brokers’ commissions on transactions will be based on negotiated commission rates at customary levels.

The Fund reserves the right to adjust the price levels of shares in the future to help maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

The Fund is required by the Exchange to comply with certain listing standards (which includes certain investment parameters) in order to maintain its listing on the Exchange. Compliance with these listing standards may compel the Fund to sell securities at an inopportune time or for a price other than the security's then-current market value. The sale of securities in such circumstances could limit the Fund's profit or require the Fund to incur a loss, and as a result, the Fund's performance could be impacted.

INVESTMENT OBJECTIVE AND POLICIES

The Prospectus describes the investment objective and certain policies of the Fund. The following supplements the information contained in the Prospectus concerning the investment objective and policies of the Fund.

The Fund is subject to the following fundamental policies, which may not be changed without approval of the holders of a majority of the outstanding voting securities (as such term is defined in the 1940 Act) of the Fund:

- (1) The Fund may not issue senior securities, except as permitted under the 1940 Act.
- (2) The Fund may not borrow money, except as permitted under the 1940 Act.
- (3) The Fund will not underwrite the securities of other issuers except to the extent the Fund may be considered an underwriter under the 1933 Act in connection with the purchase and sale of portfolio securities.
- (4) The Fund will not purchase or sell real estate or interests therein, unless acquired as a result of ownership of securities or other instruments (but this shall not prohibit the Fund from purchasing or selling securities or other instruments backed by real estate or of issuers engaged in real estate activities).
- (5) The Fund may not make loans, except as permitted under the 1940 Act and exemptive orders granted thereunder.
- (6) The Fund may not purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from purchasing or selling options, futures contracts, forward contracts or other derivative instruments, or from investing in securities or other instruments backed by physical commodities).
- (7) The Fund will not concentrate its investments in securities of issuers in any industry or group of industries, as the term "concentrate" is used in the 1940 Act. This

restriction does not apply to obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities, or securities of other investment companies.

For purposes of applying restriction (1) above, under the 1940 Act as currently in effect, the Fund is not permitted to issue senior securities, except that the Fund may borrow from any bank if immediately after such borrowing the value of the Fund's total assets is at least 300% of the principal amount of all of the Fund's borrowings (*i.e.*, the principal amount of the borrowings may not exceed 33 1/3% of the Fund's total assets). In the event that such asset coverage shall at any time fall below 300% the Fund shall, within three days thereafter (not including Sundays and holidays), reduce the amount of its borrowings to an extent that the asset coverage of such borrowings shall be at least 300%. The fundamental investment limitations set forth above limit the Fund's ability to engage in certain investment practices and purchase securities or other instruments to the extent permitted by, or consistent with, applicable law. As such, these limitations will change as the statute, rules, regulations or orders (or, if applicable, interpretations) change, and no shareholder vote will be required or sought.

Except for restriction (2), if a percentage restriction is adhered to at the time of investment, a later increase in percentage resulting from a change in market value of the investment or the total assets will not constitute a violation of that restriction. With respect to restriction (2), if the limitations are exceeded as a result of a change in market value then the Fund will reduce the amount of borrowings within three days thereafter to the extent necessary to comply with the limitations (not including Sundays and holidays).

For purposes of applying restriction (5) above, the Fund may not make loans to other persons, except through (i) the purchase of debt securities permissible under the Fund's investment policies, (ii) repurchase agreements, or (iii) the lending of portfolio securities, provided that no such loan of portfolio securities may be made by the Fund if, as a result, the aggregate of such loans would exceed 33-1/3% of the value of the Fund's total assets.

The foregoing fundamental policies of the Fund may not be changed without the affirmative vote of the majority of the outstanding voting securities of the Fund. The 1940 Act defines a majority vote as the vote of the lesser of (i) 67% or more of the voting securities represented at a meeting at which more than 50% of the outstanding securities are represented; or (ii) more than 50% of the outstanding voting securities. With respect to the submission of a change in an investment policy to the holders of outstanding voting securities of the Fund, such matter shall be deemed to have been effectively acted upon with respect to the Fund if a majority of the outstanding voting securities of the Fund vote for the approval of such matter, notwithstanding that such matter has not been approved by the holders of a majority of the outstanding voting securities of any other series of the Trust affected by such matter.

In addition to the foregoing fundamental policies, the Fund is also subject to strategies and policies discussed herein which, unless otherwise noted, are non-fundamental policies and may be changed by the Board of Trustees.

INVESTMENT STRATEGIES

Under normal circumstances, the Fund will invest at least 80% of its net assets (including investment borrowings) in the securities of companies that are expected to benefit from inflation. Fund shareholders are entitled to 60 days' written notice prior to any change in this non-fundamental investment policy.

TYPES OF INVESTMENTS

Cayman Subsidiary. The Fund expects to invest a portion of its total assets in the Subsidiary. The Subsidiary may invest in Futures Instruments as described under "Futures Instruments" below. Because the Fund may invest a substantial portion of its assets in the Subsidiary, which may hold certain of the investments described in the Prospectus and this SAI, the Fund may be considered to be investing indirectly in those investments through the Subsidiary. Therefore, except as otherwise noted, for purposes of this disclosure, references to the Fund's investments may also be deemed to include the Fund's indirect investments through the Subsidiary.

The Subsidiary is not registered under the 1940 Act and is not directly subject to its investor protections, except as noted in the Prospectus or this SAI. However, the Subsidiary is wholly-owned and controlled by the Fund and is advised by Toroso The Trust's Board of Trustees has oversight responsibility for the investment activities of the Fund, including its investment in the Subsidiary, and the Fund's role as the sole shareholder of the Subsidiary. Toroso receives no additional compensation for managing the assets of the Subsidiary. The Subsidiary will also enter into separate contracts for the provision of custody, transfer agency, and accounting agent services with the same service providers or with affiliates of the same service providers that provide those services to the Fund.

Changes in the laws of the United States (where the Fund is organized) and/or the Cayman Islands (where the Subsidiary is incorporated) could prevent the Fund and/or the Subsidiary from operating as described in the Prospectus and this SAI and could negatively affect the Fund and its shareholders. For example, the Cayman Islands currently does not impose certain taxes on the Subsidiary, including income and capital gains tax, among others. If Cayman Islands laws were changed to require the Subsidiary to pay Cayman Islands taxes, the investment returns of the Fund would likely decrease.

The financial statements of the Subsidiary will be consolidated with the Fund's financial statements in the Fund's Annual and Semi-Annual Reports.

Collateral Investments. The Fund may invest in cash, cash-like instruments or high-quality securities (collectively the "*Collateral Investments*"). The Collateral Investments may consist of high-quality securities, which include: (1) U.S. Government securities, such as bills, notes and bonds issued by the U.S. Treasury; (2) money market funds; and/or (3) corporate debt securities, such as commercial paper and other short-term unsecured promissory notes issued by businesses that are rated investment grade or determined by the Sub-Adviser to be of comparable quality. For these purposes, "investment grade" is defined as investments with a rating at the time of purchase

in one of the four highest categories of at least one nationally recognized statistical rating organizations (e.g., BBB- or higher from S&P Global Ratings or Baa3 or higher from Moody's Investors Service, Inc.) The Collateral Investments are designed to provide liquidity (i.e., provide an asset that can easily be exchanged for cash), and satisfy the "margin" requirements applicable to the Fund's futures portfolio, which require that the Fund post collateral to secure its obligations under those contracts.

The Fund's use of Collateral Investments may include obligations issued or guaranteed by the U.S. Government, its agencies and instrumentalities, including bills, notes and bonds issued by the U.S. Treasury, money market funds and corporate debt securities, such as commercial paper. Some securities issued or guaranteed by federal agencies and U.S. Government-sponsored instrumentalities may not be backed by the full faith and credit of the United States, in which case the investor must look principally to the agency or instrumentality issuing or guaranteeing the security for ultimate repayment, and may not be able to assert a claim against the United States itself in the event that the agency or instrumentality does not meet its commitment. The U.S. Government, its agencies and instrumentalities do not guarantee the market value of their securities, and consequently, the value of such securities may fluctuate. Although the Fund may hold securities that carry U.S. Government guarantees, these guarantees do not extend to shares of the Fund.

Convertible Securities. The Fund may invest, on a limited basis, in convertible securities, including convertible securities in non-public companies at the time of issuance. Convertible securities are securities that may be exchanged for, converted into, or exercised to acquire a predeterminate number of shares of an issuer's common stock at the Fund's option during a specified time period (such as convertible preferred stocks, convertible debentures or notes and warrants). A convertible security is generally a fixed income security that is senior to common stock in an issuer's capital structure, but is usually subordinated to similar non-convertible securities. In exchange for the conversion feature, many issuers will pay a lower rate of interest on convertible securities than debt securities of the same corporation. In general, the market value of a convertible security is at least the higher of its "investment value" (i.e. its value as a fixed income security) or its "conversion value" (i.e. its value upon conversion into its underlying common stock). Convertible securities are subject to the same risk as similar securities without the convertible feature. In addition, the price of a convertible security is more volatile during times of steady interest rates than other types of debt securities. The price of a convertible security tends to increase as the market value of the underlying stock rises, whereas it tends to decrease as the market value of the underlying common stock declines.

Common Stocks. Common stock represents an ownership position in a company. Common stock may or may not pay dividends and may or may not carry voting rights. Common stock occupies the most junior position in a company's capital structure. Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors, or holders of debt obligations or preferred stocks. Unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically

have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity.

Debt Securities. The Fund may invest, on a limited basis, in debt securities, including but not limited to, notes issued by investment funds which provide exposure to blockchain related technologies. A note is a debt security usually with a maturity of up to ten years. The debt securities in which the Fund may invest may be unsecured or secured against the assets of the issuer. Such debt securities may or may not bear interest, and may not have a fixed maturity date. Debt securities may entitle the holder to delivery of the corresponding amount of the underlying assets owned by the issuer or may entitle the holder to the payment of U.S. dollars representing the value of the holder's interest.

The Fund may invest in debt securities deemed to be restricted securities, which cannot be offered for public resale unless registered under the applicable securities law or that have a contractual restriction that prohibits their resale. These restrictions may include Rule 144A securities, which are privately placed securities that can be resold to qualified institutional buyers but not the general public, and securities of U.S. and non-U.S. issuers that are offered pursuant to Regulation S under the Securities Act of 1933, as amended.

Equities. The Fund may invest in equity securities. Equity securities represent an ownership position in a company. The prices of equity securities fluctuate based on, among other things, events specific to their issuers and market, economic, and other conditions. Equity securities in which the Fund invests include common stocks. Common stocks include the common stock of any class or series of a domestic or foreign corporation or any similar equity interest, such as a trust or partnership interest. These investments may or may not pay dividends and may or may not carry voting rights. Common stock occupies the most junior position in a company's capital structure. Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors, or holders of debt obligations or preferred stocks. Unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity.

Futures Instruments. The Fund may purchase and sell Futures Instruments, including exchange-listed bitcoin futures contracts. The Fund and the Subsidiary may use Futures Instruments for hedging and non-hedging purposes. Only the Subsidiary may hold futures contracts on commodities.

Transaction costs are incurred when a futures contract is bought or sold and margin deposits must be maintained. A futures contract may be satisfied by delivery or purchase, as the case may be, of the instrument or by payment of the change in the cash value of the reference asset or index. More commonly, futures contracts are closed out prior to delivery by entering into an offsetting transaction in a matching futures contract. Although the value of an reference asset or index might be a function of the value of certain specified securities, no physical delivery of those

securities is made. If the offsetting purchase price is less than the original sale price, a gain will be realized; if it is more, a loss will be realized. Conversely, if the offsetting sale price is more than the original purchase price, a gain will be realized; if it is less, a loss will be realized. The transaction costs must also be included in these calculations. There can be no assurance, however, that the Fund will be able to enter into an offsetting transaction with respect to a particular futures contract at a particular time. If the Fund is not able to enter into an offsetting transaction, the Fund will continue to be required to maintain the margin deposits on the futures contract.

Margin is the amount of funds that must be deposited by the Fund with its custodian in a segregated account in the name of the futures commission merchant in order to initiate futures trading and to maintain the Fund's and the Subsidiary's open positions in futures contracts. A margin deposit is intended to ensure the Fund's or the Subsidiary's performance of the futures contract. The margin required for a particular futures contract is set by the exchange on which the futures contract is traded and may be significantly modified from time to time by the exchange during the term of the futures contract. Futures contracts are customarily purchased and sold on margins that may range upward from less than 5% of the value of the futures contract being traded. The margin on bitcoin futures contracts has historically been significantly higher than many other Futures Instruments.

If the price of an open futures contract changes (by increase in the case of a sale or by decrease in the case of a purchase) so that the loss on the futures contract reaches a point at which the margin on deposit does not satisfy margin requirements, the broker will require an increase in the margin. However, if the value of a position increases because of favorable price changes in the futures contract so that the margin deposit exceeds the required margin, the broker will pay the excess to the Fund or the Subsidiary. In computing daily net asset value, the Fund will mark to market the current value of its open futures contracts. The Fund expects to earn interest income on its margin deposits.

Because of the low margin deposits required, futures trading involves a degree of leverage. As a result, a relatively small price movement in a futures contract may result in immediate and substantial loss, as well as gain, to the investor. For example, if at the time of purchase, 10% of the value of the futures contract is deposited as margin, a subsequent 10% decrease in the value of the futures contract would result in a total loss of the margin deposit, before any deduction for the transaction costs, if the account were then closed out. A 15% decrease would result in a loss equal to 150% of the original margin deposit, if the futures contract were closed out. Thus, a purchase or sale of a futures contract may result in losses in excess of the amount initially invested in the futures contract. However, the Fund would presumably have sustained comparable losses if, instead of investing in the futures contract, it had invested in the underlying financial instrument and sold it after the decline.

Most U.S. futures exchanges limit the amount of fluctuation permitted in futures contract prices during a single trading day. The day limit establishes the maximum amount that the price of a futures contract may vary either up or down from the previous day's settlement price at the end of a trading session. Once the daily limit has been reached in a particular type of futures contract, no trades may be made on that day at a price beyond that limit. The daily limit governs only price movement during a particular trading day and therefore does not limit potential losses,

because the limit may prevent the liquidation of unfavorable positions. Futures contract prices have occasionally moved to the daily limit for several consecutive trading days with little or no trading, thereby preventing prompt liquidation of Futures positions and subjecting some Futures traders to substantial losses. Despite the daily price limits on various futures exchanges, the price volatility of commodity futures contracts has been historically greater than that for traditional securities such as stocks and bonds. To the extent that the Subsidiary invests in commodity futures contracts, the assets of the Fund and the Subsidiary, and therefore the prices of Fund shares, may be subject to greater volatility.

There can be no assurance that a liquid market will exist at a time when the Fund seeks to close out a futures contract. The Fund would continue to be required to meet margin requirements until the position is closed, possibly resulting in a decline in the Fund's net asset value. In addition, many of the contracts discussed above are relatively new instruments without a significant trading history. As a result, there can be no assurance that an active secondary market will develop or continue to exist.

The Fund and Subsidiary will comply with SEC guidance with respect to coverage of futures positions by registered investment companies. SEC guidance may require the Fund, in certain circumstances, to segregate cash or liquid securities on its books and records, or engage in other appropriate measures to "cover" its obligations under certain futures or derivative contracts. For example, with respect to futures that are not cash settled, the Fund is required to segregate liquid assets equal to the full notional value of the futures contract. For futures contracts that are cash settled, the Fund is required to segregate liquid assets in an amount equal to the Fund's daily mark-to-market (net) obligation (i.e., the Fund's daily net liability) under the contract. Securities earmarked or held in a segregated account cannot be sold while the Fund's futures position is outstanding, unless replaced with other permissible assets (or otherwise covered), and will be marked-to-market daily. As an alternative to segregating assets, for any futures contract held by the Fund, the Fund could purchase a put option on that same futures contract with a strike price as high or higher than the price of the contract held. The Fund may not enter into futures positions if such positions will require the Fund to set aside or earmark more than 100% of its net assets.

Bitcoin Futures. The price of bitcoin futures is based on the expected price of bitcoin on certain exchanges on the expiration date of the bitcoin futures contract. Bitcoin futures prices reflect the price of bitcoin on certain exchanges only, and not the bitcoin cash market. The liquidity of the market for bitcoin futures depends on, among other things: the supply and demand for bitcoin futures; the supply and demand for bitcoin; the adoption of bitcoin for commercial uses; the anticipated increase of investments in bitcoin-related investment products by retail and institutional investors; speculative interest in bitcoin, bitcoin futures, and bitcoin-related investment products; regulatory or other restrictions on investors' ability to invest in bitcoin futures; and the potential ability to hedge against the price of bitcoin with bitcoin futures (and vice versa).

The market for bitcoin futures may be illiquid. This means that the Subsidiary may not be able to buy and sell bitcoin futures quickly or at the desired price. For example, it is difficult to execute a trade at a specific price when there is a relatively small volume of buy and sell orders in a market. A materially adverse development in one or more of the factors on which the liquidity

of the market for bitcoin futures depends may cause the market to become illiquid, for short or long periods. In such markets, the Subsidiary may not be able to buy and sell bitcoin futures quickly (or at all) or at the desired price. Market illiquidity may cause losses for the Fund. Additionally, the large size of the futures positions which the Subsidiary may acquire increases the risk of illiquidity, as larger positions may be more difficult to fully liquidate, may take longer to liquidate, and, as a result of their size, may expose the Fund to potentially more significant losses while trying to do so.

Limits imposed by counterparties, exchanges or other regulatory organizations, such as accountability levels, position limits and daily price fluctuation limits, may contribute to a lack of liquidity with respect to some financial instruments and have a negative impact on Fund performance. During periods of market illiquidity, including periods of market disruption and volatility, it may be difficult or impossible for the Fund to buy or sell futures contracts or other financial instruments.

Illiquid Securities. The Fund may invest in illiquid securities (any investment that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the asset). For purposes of this restriction, illiquid securities may include, but are not limited to, certain restricted securities (securities the disposition of which is restricted under the federal securities laws), securities that may only be resold pursuant to Rule 144A under the 1933 Act but that are deemed to be illiquid; and repurchase agreements with maturities in excess of seven days. However, the Fund will not acquire illiquid securities if, as a result, such securities would comprise more than 15% of the value of the Fund's net assets. The Adviser and/or applicable Sub-Adviser, subject to oversight by the Board of Trustees, has the ultimate authority to determine, to the extent permissible under the federal securities laws, which securities are liquid or illiquid for purposes of this 15% limitation under the Fund's liquidity risk management program, adopted pursuant to Rule 22e-4 under the 1940 Act.

Other Investment Companies and Pooled Investment Vehicles. The Fund and the Subsidiary may invest in securities of other investment companies, including registered investment companies that are ETFs and closed-end funds that provide exposure to commodities, equity securities and fixed income securities to the extent permitted under the 1940 Act. ETFs trade on a securities exchange and their shares may, at times, trade at a premium or discount to their net asset value. Most ETFs hold a portfolio of common stocks or bonds designed to track the performance of a securities index, including industry, sector, country and region indexes, but an ETF may not replicate exactly the performance of the index it seeks to track for a number of reasons, including transaction costs incurred by the ETF.

The Fund and the Subsidiary may also invest a portion of its assets in pooled investment vehicles other than registered investment companies. For example, some vehicles which are commonly referred to as "exchanged traded funds" may not be registered investment companies because of the nature of their underlying investments. As a stockholder in an investment company or other pooled vehicle, the Fund or the Subsidiary will bear its ratable share of that investment company's or vehicle's expenses, and would remain subject to payment of the fund's or vehicle's advisory and administrative fees with respect to assets so invested. Shareholders would therefore

be subject to duplicative expenses to the extent the Fund or the Subsidiary invests in other investment companies or vehicles. In addition, the securities of other investment companies or pooled vehicles may be leveraged and will therefore be subject to leverage risks (in addition to other risks of the investment company's or pooled vehicle's strategy). The Fund or the Subsidiary will also incur brokerage costs when purchasing and selling shares of ETFs and other pooled vehicles.

An investment in the shares of another fund is subject to the risks associated with that fund's portfolio securities. To the extent the Fund or the Subsidiary invests in shares of another fund, Fund shareholders would indirectly pay a portion of that fund's expenses, including advisory fees, brokerage and other distribution expenses. These fees and expenses are in addition to the direct expenses of the Fund's and the Subsidiary's own operations.

Real Estate Investment Trusts. The Fund may invest in real estate investment trusts ("REITs"), which are typically publicly traded corporations or trusts that invest in residential or commercial real estate. A REIT is a corporation or business trust (that would otherwise be taxed as a corporation) which meets the definitional requirements of the Internal Revenue Code. The Internal Revenue Code permits a qualifying REIT to deduct from taxable income the dividends paid, thereby effectively eliminating corporate level federal income tax and making the REIT a pass-through vehicle for federal income tax purposes. REITs can generally be divided into the following three types: (i) equity REITs which invest the majority of their assets directly in real property and derive their income primarily from rents and capital gains or real estate appreciation; (ii) mortgage REITs which invest the majority of their assets in real estate mortgage loans and derive their income primarily from interest payments; and (iii) hybrid REITs which combine the characteristics of equity REITs and mortgage REITs.

Securities Lending. The Fund may lend portfolio securities in an amount up to one-third of its total assets to brokers, dealers and other financial institutions. In a portfolio securities lending transaction, the Fund receives from the borrower an amount equal to the interest paid or the dividends declared on the loaned securities during the term of the loan as well as the interest on the collateral securities, less any fees (such as finders or administrative fees) the Fund pays in arranging the loan. The Fund may share the interest it receives on the collateral securities with the borrower. The terms of the Fund's loans permit the Fund to reacquire loaned securities on five business days' notice or in time to vote on any important matter. Loans are subject to termination at the option of the Fund or borrower at any time, and the borrowed securities must be returned when the loan is terminated. The Fund may pay fees to arrange for securities loans.

The SEC currently requires that the following conditions must be met whenever the Fund's portfolio securities are loaned: (1) the Fund must receive at least 100% cash collateral from the borrower; (2) the borrower must increase such collateral whenever the market value of the securities rises above the level of such collateral; (3) the Fund must be able to terminate the loan at any time; (4) the Fund must receive reasonable interest on the loan, as well as any dividends, interest or other distributions on the loaned securities, and any increase in market value; (5) the Fund may pay only reasonable custodian fees approved by the Board in connection with the loan; (6) while voting rights on the loaned securities may pass to the borrower, the Board must terminate the loan and regain the right to vote the securities if a material event adversely affecting the

investment occurs, and (7) the Fund may not loan its portfolio securities so that the value of the loaned securities is more than one-third of its total asset value, including collateral received from such loans. These conditions may be subject to future modification. Such loans will be terminable at any time upon specified notice. The Fund might experience the risk of loss if the institution with which it has engaged in a portfolio loan transaction breaches its agreement with the Fund. In addition, the Fund will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. As part of participating in a lending program, the Fund may be required to invest in collateralized debt or other securities that bear the risk of loss of principal. In addition, all investments made with the collateral received are subject to the risks associated with such investments. If such investments lose value, the Fund will have to cover the loss when repaying the collateral.

Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that the Fund may receive as collateral will not become part of the Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay the Fund any accrued income on those securities, and the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral.

Short-Term Instruments and Temporary Investments. The Fund may invest in short-term instruments, including money market instruments, on an ongoing basis to provide liquidity, in connection with collateral received by the Fund in its securities lending activities, or for other reasons. Money market instruments are generally short-term investments that may include, but are not limited to: (i) shares of money market funds; (ii) obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities (including government-sponsored enterprises); (iii) negotiable certificates of deposit, bankers' acceptances, fixed-time deposits and other obligations of U.S. and non-U.S. banks (including non-U.S. branches) and similar institutions; (iv) commercial paper rated, at the date of purchase, "Prime-1" by Moody's[®] Investors Service, Inc., "F-1" by Fitch Ratings, Inc., or "A-1" by Standard & Poor's[®] Financial Services LLC, a subsidiary of S&P Global, Inc., or if unrated, of comparable quality as determined by the Adviser and/or Sub-Adviser; (v) non-convertible corporate debt securities (e.g., bonds and debentures) with remaining maturities at the date of purchase of not more than 397 days and that satisfy the rating requirements set forth in Rule 2a-7 under the 1940 Act; (vi) repurchase agreements; and (vii) short-term U.S. dollar denominated obligations of non-U.S. banks (including U.S. branches) that, in the opinion of the Adviser and/or Sub-Adviser, are of comparable quality to obligations of U.S. banks that may be purchased by the Fund. Any of these instruments may be purchased on a current or forward-settled basis. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

PORTFOLIO TURNOVER

The Fund buys and sells portfolio securities in the normal course of its investment activities. The proportion of the Fund's investment portfolio that is bought and sold during a year is known as the Fund's portfolio turnover rate. A turnover rate of 100% would occur, for example, if the Fund bought and sold securities valued at 100% of its net assets within one year. A high portfolio turnover rate could result in the payment by the Fund of increased brokerage costs, expenses and taxes.

INVESTMENT RISKS

Overview

An investment in the Fund should be made with an understanding of the risks that an investment in the Fund shares entails, including the risk that the financial condition of the issuers of the equity securities or the general condition of the securities market may worsen and the value of the securities and therefore the value of the Fund may decline. The Fund may not be an appropriate investment for those who are unable or unwilling to assume the risks involved generally with such an investment. The past market and earnings performance of any of the securities included in the Fund is not predictive of their future performance.

Borrowing and Leverage Risk

When the Fund borrows money, it must pay interest and other fees, which will reduce the Fund's returns if such costs exceed the returns on the portfolio securities purchased or retained with such borrowings. Any such borrowings are intended to be temporary. However, under certain market conditions, including periods of low demand or decreased liquidity, such borrowings might be outstanding for longer periods of time. As prescribed by the 1940 Act, the Fund will be required to maintain specified asset coverage of at least 300% with respect to any bank borrowing immediately following such borrowing. The Fund may be required to dispose of assets on unfavorable terms if market fluctuations or other factors reduce the Fund's asset coverage to less than the prescribed amount.

Common Stocks Risk

Common stocks are especially susceptible to general market movements and to volatile increases and decreases of value as market confidence in and perceptions of the issuers change. These perceptions are based on unpredictable factors including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic or banking crises. Amplify Investments cannot predict the direction or scope of any of these factors. Shareholders of common stocks have rights to receive payments from the issuers of those common stocks that are generally subordinate to those of creditors of, or holders of debt obligations or preferred stocks of, such issuers.

Shareholders of common stocks of the type held by the Fund have a right to receive dividends only when and if, and in the amounts, declared by the issuer's board of directors and have a right to participate in amounts available for distribution by the issuer only after all other claims on the issuer have been paid. Common stocks do not represent an obligation of the issuer and, therefore, do not offer any assurance of income or provide the same degree of protection of capital as do debt securities. The issuance of additional debt securities or preferred stock will create prior claims for payment of principal, interest and dividends which could adversely affect the ability and inclination of the issuer to declare or pay dividends on its common stock or the rights of holders of common stock with respect to assets of the issuer upon liquidation or bankruptcy. The value of common stocks is subject to market fluctuations for as long as the common stocks remain outstanding, and thus the value of the equity securities in the Fund will fluctuate over the life of the Fund and may be more or less than the price at which they were purchased by the Fund. The equity securities held in the Fund may appreciate or depreciate in value (or pay dividends) depending on the full range of economic and market influences affecting these securities, including the impact of the Fund's purchase and sale of the equity securities and other factors.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the entity, have generally inferior rights to receive payments from the issuer in comparison with the rights of creditors of, or holders of debt obligations or preferred stocks issued by, the issuer. Cumulative preferred stock dividends must be paid before common stock dividends and any cumulative preferred stock dividend omitted is added to future dividends payable to the holders of cumulative preferred stock. Preferred stockholders are also generally entitled to rights on liquidation, which are senior to those of common stockholders.

Cyber Security Risk

As the use of Internet technology has become more prevalent in the course of business, The Fund have become more susceptible to potential operational risks through breaches in cyber security. A breach in cyber security refers to both intentional and unintentional events that may cause the Fund to lose proprietary information, suffer data corruption or lose operational capacity. Such events could cause the Fund to incur regulatory penalties, reputational damage, additional compliance costs associated with corrective measures and/or financial loss. Cyber security breaches may involve unauthorized access to the Fund's digital information systems through "hacking" or malicious software coding, but may also result from outside attacks such as denial-of-service attacks through efforts to make network services unavailable to intended users. In addition, cyber security breaches of the Fund's third party service providers, such as its administrator, transfer agent, custodian, or sub-adviser, as applicable, or issuers in which the Fund invests, can also subject the Fund to many of the same risks associated with direct cyber security breaches. The Fund has established risk management systems designed to reduce the risks associated with cyber security. However, there is no guarantee that such efforts will succeed, especially because the Fund does not directly control the cyber security systems of issuers or third party service providers.

Derivatives Risk

The use of derivatives presents risks different from, and possibly greater than, the risks associated with investing directly in traditional securities. Among the risks presented are market risk, credit risk, management risk and liquidity risk. The use of derivatives can lead to losses because of adverse movements in the price or value of the underlying asset, index or rate, which may be magnified by certain features of the derivatives. In addition, when the Fund invests in certain derivative securities, including, but not limited to, when-issued securities, forward commitments, futures contracts and interest rate swaps, the Fund is effectively leveraging its investments, which could result in exaggerated changes in the net asset value of the Fund's shares and can result in losses that exceed the amount originally invested. The success of the Sub-Advisor's derivatives strategies will depend on its ability to assess and predict the impact of market or economic developments on the underlying asset, index or rate and the derivative itself, without the benefit of observing the performance of the derivative under all possible market conditions. Liquidity risk exists when a security cannot be purchased or sold at the time desired, or cannot be purchased or sold without adversely affecting the price.

Failure to Qualify as a Regulated Investment Company Risk

If, in any year, the Fund fails to qualify as a regulated investment company under the applicable tax laws, the Fund would be taxed as an ordinary corporation. In such circumstances, the Fund could be required to recognize unrealized gains, pay substantial taxes and interest and make substantial distributions before requalifying as a regulated investment company that is accorded special tax treatment. If the Fund fails to qualify as a regulated investment company, distributions to the Fund's shareholders generally would be eligible for the dividends received deduction in the case of corporate shareholders.

Federal Income Tax Treatment of Exchange-Listed Commodity Futures and Investments in the Subsidiary.

The Subsidiary's transactions in exchange-listed commodity futures contracts will be subject to special provisions of the Internal Revenue Code of 1986, as amended (the "Code") that, among other things, may affect the character of gains and losses realized by the Subsidiary (i.e., may affect whether gains or losses are ordinary or capital, or short-term or long-term), may accelerate recognition of income to the Subsidiary and may defer Subsidiary losses. Because the Subsidiary is a controlled foreign corporation for U.S. federal income tax purposes, this treatment of the Subsidiary's income will affect the income the Fund must recognize. These rules could, therefore, affect the character, amount and timing of distributions to shareholders. These provisions also (a) will require the Subsidiary to mark-to-market certain types of the positions in its portfolio (i.e., treat them as if they were closed out), and (b) may cause the Subsidiary and the Fund to recognize income without the Fund receiving cash with which to make distributions in amounts necessary to satisfy the 90% distribution requirement for qualifying to be taxed as a regulated investment company and the distribution requirement for avoiding excise taxes.

The Fund intends to treat any income it may derive from Futures Instruments received by the Subsidiary as "qualifying income" under the provisions of the Code applicable to "regulated

investment companies” (“*RICs*”). The Internal Revenue Service had issued numerous private letter rulings (“*PLRs*”) provided to third parties not associated with the Fund or its affiliates (which only those parties may rely on as precedent) concluding that similar arrangements resulted in qualifying income. Many of such *PLRs* have now been revoked by the Internal Revenue Service. In March of 2019, the Internal Revenue Service published Regulations that concluded that income from a corporation similar to the Subsidiary would be qualifying income, if the income is related to the Fund’s business of investing in stocks or securities. Although the Regulations do not require distributions from the Subsidiary, the Fund intends to cause the Subsidiary to make distributions that would allow the Fund to make timely distributions to its shareholders. The Fund generally will be required to include in its own taxable income the income of the Subsidiary for a tax year, regardless of whether the Fund receives a distribution of the Subsidiary’s income in that tax year, and this income would nevertheless be subject to the distribution requirement for qualification as a regulated investment company and would be taken into account for purposes of the 4% excise tax.

Legal and Litigation Risk

In certain frontier and emerging markets, fraud and corruption may be more prevalent than in developed market countries. Securities and issuers that the Fund may invest in are exposed to these risks, which could have a negative impact on a security’s value. It may be difficult for the Fund to obtain or enforce judgments against parties located outside of the U.S. It may be difficult or impossible to obtain or enforce remedies against non-U.S. governments, their agencies, quasi-sovereign entities, other non-U.S. issuers or counterparties.

Listing Standards Risk

The Fund is required by the Exchange to comply with certain listing standards (which includes certain investment parameters) in order to maintain its listing on the Exchange. Compliance with these listing standards may compel the Fund to sell securities at an inopportune time or for a price other than the security’s then-current market value. The sale of securities in such circumstances could limit the Fund’s profit or require the Fund to incur a loss, and as a result, the Fund’s performance could be impacted.

Liquidity Risk

Whether or not the securities held by the Fund are listed on a securities exchange, the principal trading market for certain of the securities may be in the OTC market. As a result, the existence of a liquid trading market for such securities may depend on whether dealers will make a market in the securities. There can be no assurance that a market will be made for any of the securities, that any market for such securities will be maintained or that there will be sufficient liquidity of the securities in any markets made. The price at which such securities are held by the Fund will be adversely affected if trading markets for the securities are limited or absent.

Market Events Risk

Turbulence in the economic, political and financial system has historically resulted, and may continue to result, in an unusually high degree of volatility in the capital markets. Both domestic and non-U.S. capital markets have been experiencing increased volatility and turmoil, with issuers that have exposure to the real estate, mortgage and credit markets particularly affected, and it is uncertain whether or for how long these conditions could continue. Reduced liquidity in equity, credit and fixed-income markets may adversely affect many issuers worldwide. This reduced liquidity may result in less money being available to purchase raw materials, goods and services from emerging markets, which may, in turn, bring down the prices of these economic staples. It may also result in small or emerging market issuers having more difficulty obtaining financing, which may, in turn, cause a decline in their security prices. These events and possible continued market turbulence may have an adverse effect on the Fund.

In addition, local, regional or global events such as war, acts of terrorism, spread of infectious diseases or other public health issues, recessions, or other events could have a significant negative impact on the Fund and its investments. Such events may affect certain geographic regions, countries, sectors and industries more significantly than others. Such events could adversely affect the prices and liquidity of the Fund's portfolio securities or other instruments and could result in disruptions in the trading markets. Any of such circumstances could have a materially negative impact on the value of the Fund's Shares and result in increased market volatility. During any such events, the Fund's Shares may trade at increased premiums or discounts to their NAV.

Health crises caused by the outbreak of infectious diseases or other public health issues, may exacerbate other pre-existing political, social, economic, market and financial risks. The impact of any such events, could negatively affect the global economy, as well as the economies of individual countries or regions, the financial performance of individual companies, sectors and industries, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests and negatively impact the Fund's investment return.

For example, an outbreak of a respiratory disease designated as COVID-19 was first detected in China in December 2019 and subsequently spread internationally. The transmission of COVID-19 and efforts to contain its spread have resulted in international, national and local border closings and other significant travel restrictions and disruptions, significant disruptions to business operations, supply chains and customer activity, event cancellations and restrictions, service cancellations, reductions and other changes, significant challenges in healthcare service preparation and delivery, and quarantines, as well as general concern and uncertainty that has negatively affected the economic environment. These impacts also have caused significant volatility and declines in global financial markets, which have caused losses for investors. The impact of this COVID-19 pandemic may be short term or may last for an extended period of time, and in either case could result in a substantial economic downturn or recession.

In addition, the operations of the Fund, the Adviser and the Fund's other service providers may be significantly impacted, or even temporarily or permanently halted, as a result of

government quarantine measures, voluntary and precautionary restrictions on travel or meetings and other factors related to a public health emergency, including its potential adverse impact on the health of any such entity's personnel.

REITs Risk

The Fund may invest in REITs. REITs are financial vehicles that pool investors' capital to purchase or finance real estate. REITs may concentrate their investments in specific geographic areas or in specific property types, e.g., hotels, shopping malls, residential complexes and office buildings. The market value of REIT shares and the ability of the REITs to distribute income may be adversely affected by several factors, including but not limited to, rising interest rates; changes in the national, state and local economic climate and real estate conditions; perceptions of prospective tenants of the safety, convenience and attractiveness of the properties; the ability of the owners to provide adequate management, maintenance and insurance; increased competition from new properties; the impact of present or future environmental legislation and compliance with environmental laws; changes in real estate taxes and other operating expenses; adverse changes in governmental rules and fiscal policies; adverse changes in zoning laws; and other factors beyond the control of the issuers of the REITs. REITs may be affected by changes in underlying real estate values, which may have an exaggerated effect to the extent such REIT may concentrate investments in particular geographic regions or property types. In addition, distributions received from REITs may consist of dividends, capital gains and/or return of capital. Many of these distributions however will not generally qualify for favorable treatment as qualified dividend income.

Certain REITs have relatively small market capitalization, which may tend to increase the volatility of the market price of securities issued by such REITs. Furthermore, REITs are dependent upon specialized management skills, have limited diversification and are, therefore, subject to risks inherent in operating and financing a limited number of projects. In addition to these risks, equity REITs may be affected by changes in the value of the underlying property owned by the trusts, while mortgage REITs may be affected by the quality of any credit extended. Further, equity and mortgage REITs are dependent upon management skills and generally may not be diversified. Equity and mortgage REITs are also subject to heavy cash flow dependency defaults by borrowers and self-liquidation. In addition, equity and mortgage REITs could possibly fail to qualify for tax free pass-through of income under the Internal Revenue Code or to maintain their exemptions from registration under the 1940 Act. The above factors may also adversely affect a borrower's or a lessee's ability to meet its obligations to the REIT. In the event of default by a borrower or lessee, the REIT may experience delays in enforcing its rights as a mortgagee or lessor and may incur substantial costs associated with protecting its investments.

Rolling, Backwardation and Contango Risk

When purchasing stocks or bonds, the buyer acquires ownership in the security; however, buyers of futures contracts are not entitled to ownership of the underlying reference asset until and unless they decide to accept delivery at expiration of the contract. In practice, delivery of the underlying reference asset to satisfy a futures contract rarely occurs because most futures traders

use the liquidity of the central marketplace to sell their exchange-traded futures contract before expiration. As futures contracts approach expiration, they may be replaced by similar contracts that have a later expiration. For example, a contract purchased and held in June 2022 may have an expiration date in August 2022. As this contract nears expiration, a long position in the contract may be replaced by selling the August 2022 contract and purchasing a contract expiring in October 2022. This process is referred to as “rolling.” The price of a futures contract is generally higher or lower than the spot price of the underlying asset when there is significant time to expiration of the contract due to various factors within the market. As a futures contract nears expiration, the futures price will tend to converge to the spot price. In some circumstances, the prices of some futures contracts with near-term expirations may be higher than the prices for futures contracts with longer-term expirations. This circumstance is referred to as “backwardation.” If the market for futures contracts is in “backwardation,” the sale of the near-term month contract would be at a higher price than the longer-term contract, and futures investors generally will earn positive returns. Conversely, a “contango” market is one in which the price of futures contracts in the near-term months are lower than the price of futures contracts in the longer-term months. If the market for futures contracts is in “contango,” it would create a cost to “roll” the futures contract. The actual realization of a potential roll cost will depend on the difference in price of the near and distant contracts. The Fund will not “roll” futures contracts on a predefined schedule as they approach expiration; instead the Adviser may determine to roll to another futures contract in an attempt to generate maximum yield. There can be no guarantee that such a strategy will produce the desired results.

Securities of Other Investment Companies Risk

The Fund may invest in securities of other investment companies. As a shareholder in securities of another investment company, the Fund will bear its ratable share of that investment company’s expenses, and would be subject to payment of the Fund’s advisory and administrative fees with respect to assets so invested. Shareholders would therefore be subject to duplicative expenses to the extent the Fund invests in other investment companies. In addition, the Fund will incur brokerage costs when purchasing and selling shares of exchange-traded investment companies.

MANAGEMENT OF THE FUND

TRUSTEES AND OFFICERS

The general supervision of the duties performed for the Fund under the Investment Management Agreement (as defined below) is the responsibility of the Board of Trustees. There are five Trustees of the Trust, two of whom are “interested persons” (as the term is defined in the 1940 Act) (“*Interested Trustees*”) and three of whom are Trustees who are not officers or employees of Amplify Investments or any of its affiliates (each an “*Independent Trustee*” and collectively the “*Independent Trustees*”). The Trustees serve for indefinite terms until their resignation, death or removal. The Trust has not established a lead Independent Trustee position. The Trustees set broad policies for the Fund, choose the Trust’s officers and hired the Fund’s investment adviser. Each Trustee, except for Christian Magoon and John Phillips, is an

Independent Trustee. Mr. Magoon is deemed an Interested Trustee of the Trust due to his positions as Chief Executive Officer and President of Amplify Investments and the Trust. Mr. Phillips is deemed an Interested Trustee due to his positions as Chief Operating Officer of Amplify Investments and Secretary of the Trust. The officers of the Trust manage its day-to-day operations, are responsible to the Trust’s Board of Trustees and serve indefinite terms. The following is a list of the Trustees and executive officers of the Trust and a statement of their present positions and principal occupations during the past five years, the number of portfolios each Trustee oversees and the other directorships they have held during the past five years, if applicable.

- (1) Mr. Magoon is deemed an “interested person” of the Trust due to his position as Chief Executive Officer of Amplify Investments LLC and Chief Executive Officer and President of the Trust.
- (2) Mr. Phillips is deemed an “interested person” of the Trust due to his positions as Chief Operating Officer of Amplify Investments LLC and Secretary of the Trust.

UNITARY BOARD LEADERSHIP STRUCTURE

It is anticipated that each Trustee will serve as a trustee of all funds in the Amplify Investments Fund Complex (as defined below), which is known as a “unitary” board leadership structure. Each Trustee currently serves as a trustee of the Fund and is anticipated to serve as a trustee for future Funds advised by Amplify Investments (each, an “*Amplify Fund*” and collectively, the “*Amplify Investments Fund Complex*”). None of the Trustees who are not “interested persons” of the Trust, nor any of their immediate family members, have ever been a director, officer or employee of, or consultant to, Amplify Investments or any of its affiliates. Mr. Magoon, an Interested Trustee, serves as the Chair of the Board for each Fund in the Amplify Investments Fund Complex.

The same five persons serve as Trustees on the Trust’s Board and are anticipated to serve on the Boards of all other Amplify Funds. The unitary board structure was adopted for the Amplify Funds because of the efficiencies it achieves with respect to the governance and oversight of the Amplify Funds. Each Amplify Fund is subject to the rules and regulations of the 1940 Act (and other applicable securities laws), which means that many of the Amplify Funds face similar issues with respect to certain of their fundamental activities, including risk management, portfolio liquidity, portfolio valuation and financial reporting. Because of the similar and often overlapping issues facing the Amplify Funds, including among any such exchange-traded funds, the Board of the Amplify Funds believes that maintaining a unitary board structure promotes efficiency and consistency in the governance and oversight of all Amplify Funds and reduces the costs, administrative burdens and possible conflicts that may result from having multiple boards. In adopting a unitary board structure, the Trustees seek to provide effective governance through establishing a board the overall composition of which, as a body, possesses the appropriate skills, diversity, independence and experience to oversee the Fund’s business.

Annually, the Board of Trustees will review its governance structure and the committee structures, its performance and functions and any processes that would enhance board governance over the business of the Amplify Funds. The Board of Trustees has determined that its leadership structure, including the unitary board and committee structure, is appropriate based on the characteristics of the funds it serves and the characteristics of the Amplify Investments Fund Complex as a whole.

The Board of Trustees has established two standing committees (as described below) and has delegated certain of its responsibilities to those committees. The Board of Trustees and its committees meet frequently throughout the year to oversee the activities of the Fund, review contractual arrangements with and the performance of service providers, oversee compliance with regulatory requirements and review Fund performance. The Independent Trustees are represented by independent legal counsel at all Board and committee meetings. Generally, the Board of Trustees acts by majority vote of the Trustees present at a meeting, assuming a quorum is present, unless otherwise required by applicable law.

The two standing committees of the Board of Trustees are the Nominating and Governance Committee and the Audit Committee.

The Nominating and Governance Committee is responsible for appointing and nominating non-interested persons to the Board of Trustees. Messrs. DiSanto, Powers and Tucker are members of the Nominating and Governance Committee. If there is no vacancy on the Board of Trustees, the Board of Trustees will not actively seek recommendations from other parties, including shareholders. The Nominating and Governance Committee will not consider new trustee candidates who are 70 years of age or older or will turn 70 years old during the initial term. When a vacancy on the Board of Trustees occurs and nominations are sought to fill such vacancy, the Nominating and Governance Committee may seek nominations from those sources it deems appropriate in its discretion, including shareholders of the Fund. To submit a recommendation for nomination as a candidate for a position on the Board of Trustees, shareholders of the Fund should mail such recommendation to John Phillips, Secretary, at the Trust's address, 310 South Hale Street, Wheaton, Illinois 60187. Such recommendation shall include the following information: (i) a statement in writing setting forth (A) the name, age, date of birth, business address, residence address and nationality of the person or persons to be nominated; (B) the class or series and number of all shares of the Fund owned of record or beneficially by each such person or persons, as reported to such shareholder by such nominee(s); (C) any other information regarding each such person required by paragraphs (a), (d), (e) and (f) of Item 401 of Regulation S-K or paragraph (b) of Item 22 of Rule 14a-101 (Schedule 14A) under the 1934 Act; (D) any other information regarding the person or persons to be nominated that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitation of proxies for election of trustees or directors pursuant to Section 14 of the 1934 Act and the rules and regulations promulgated thereunder; and (E) whether such shareholder believes any nominee is or will be an "interested person" of the Fund (as defined in the 1940 Act) and, if not an "interested person," information regarding each nominee that will be sufficient for the Fund to make such determination; and (ii) the written and signed consent of any person to be nominated to be named as a nominee and to serve as a trustee if elected. In addition, the Trustees may require any proposed

nominee to furnish such other information as they may reasonably require or deem necessary to determine the eligibility of such proposed nominee to serve as a Trustee.

The Audit Committee is responsible for overseeing the Fund's accounting and financial reporting process, the system of internal controls and audit process and for evaluating and appointing independent auditors (subject also to approval of the Board of Trustees). Messrs. DiSanto, Powers and Tucker serve on the Audit Committee.

RISK OVERSIGHT

As part of the general oversight of the Fund, the Board of Trustees is involved in the risk oversight of the Fund. The Board of Trustees has adopted and periodically reviews policies and procedures designed to address the Fund's risks. Oversight of investment and compliance risk, including, if applicable, oversight of any Sub-Adviser, is performed primarily at the Board level in conjunction with the Adviser's investment oversight group and the Trust's Chief Compliance Officer ("*CCO*"), Ed Keiley.

Oversight of other risks also occurs at the committee level. The Adviser's investment oversight group reports to the Board of Trustees at quarterly meetings regarding, among other things, Fund performance and the various drivers of such performance as well as information related to the Adviser and its operations and processes. The Board of Trustees reviews reports on the Fund's and the service providers' compliance policies and procedures at each quarterly Board meeting and receives an annual report from the CCO regarding the operations of the Fund's and the service providers' compliance programs. In addition, the Independent Trustees meet privately each quarter with the CCO. The Audit Committee reviews with the Adviser the Fund's major financial risk exposures and the steps the Adviser has taken to monitor and control these exposures, including the Fund's risk assessment and risk management policies and guidelines. The Audit Committee also, as appropriate, reviews in a general manner the processes other Board committees have in place with respect to risk assessment and risk management. The Nominating and Governance Committee monitors all matters related to the corporate governance of the Trust.

Not all risks that may affect the Fund can be identified nor can controls be developed to eliminate or mitigate their occurrence or effects. It may not be practical or cost effective to eliminate or mitigate certain risks, the processes and controls employed to address certain risks may be limited in their effectiveness, and some risks are simply beyond the reasonable control of the Fund or the Adviser or other service providers. Moreover, it is necessary to bear certain risks (such as investment-related risks) to achieve the Fund's goals. As a result of the foregoing and other factors, the Fund's ability to manage risk is subject to substantial limitations.

BOARD DIVERSIFICATION AND TRUSTEE QUALIFICATIONS

As described above, the Nominating and Governance Committee of the Board of Trustees oversees matters related to the nomination of Trustees. The Nominating and Governance Committee seeks to establish an effective Board with an appropriate range of skills and diversity, including, as appropriate, differences in background, professional experience, education, vocations, and other individual characteristics and traits in the aggregate. Each Trustee must meet

certain basic requirements, including relevant skills and experience, time availability and, if qualifying as an Independent Trustee, independence from the Adviser, underwriters or other service providers, including any affiliates of these entities.

Listed below for each current Trustee are the experiences, qualifications and attributes that led to the conclusion, as of the date of this SAI, that each current Trustee should serve as a Trustee in light of the Trust's business and structure.

Independent Trustees. Michael DiSanto has served as an attorney with the City of Naperville, Illinois since 2007, and currently serves as the City Attorney of Naperville. In this capacity, Mr. DiSanto oversees municipal matters for the city. Since 2013, Mr. DiSanto has served on the Elder Board of the Compass Church. Additionally, in 2012, Mr. DiSanto held the position of adjunct professor at Aurora University in Aurora, Illinois. Mr. DiSanto has served as a College Scholarship Board Member for the National Student Leadership Conference since 2018. Mr. DiSanto has served as a Trustee of the Amplify Funds since 2015. He currently serves as Chair of the Nominating and Governance Committee (since 2015) of the Amplify Funds.

Rick Powers is the Director, Department of Public Works, City of Peoria, Illinois, a position he has held since 2019. Previously, from 2014 to 2019, Mr. Powers served as Deputy Commissioner, Transportation with the State of Indiana, a position he has held since 2014. Additionally, from 2001 to 2014, Mr. Powers served as Director, Code Enforcement with the City of Indianapolis, Indiana. Mr. Powers has served as a Trustee of the Amplify Funds since 2015.

Mark Tucker is the sole member of Aspen Equity Partners, LLC, a company he founded in 2009 to serve as the managing member of several single-purpose limited liability companies that own and operate commercial property in Illinois, Wisconsin and Minnesota. Mr. Tucker has served as a Trustee of the Amplify Funds since 2015. He currently serves as Chair of the Audit Committee (since 2015) of the Amplify Funds.

Interested Trustees. Christian Magoon is Chair of the Board of Trustees of the Amplify Funds and Chief Executive Officer and President of Amplify Investments. Mr. Magoon has served as Chief Executive Officer of Magoon Capital and YieldShares, LLC, which he participated in founding in 2010 and 2013, respectively. Mr. Magoon has served as a Trustee of the Amplify Funds since 2015.

John Phillips has worked as the Chief Operating Officer and Head of Product Development of Amplify Investments since March 2015. Previously, Mr. Phillips was the Managing Director responsible for the Product Development Group at White, Weld & Co., LLC since 2007 and prior to that served as a Managing Director at Guggenheim Partners LLC. Mr. Phillips has worked in the financial services industry since 1990.

For the 2020 calendar year, each Independent Trustee was paid a fixed annual retainer of \$15,000. The fixed annual retainer was allocated equally among each Fund in the Amplify Investments Fund Complex. Beginning with the calendar year 2021, each Independent Trustee is compensated based upon on the average assets under management in the Amplify Investments Fund Complex over trailing six month periods (ending the prior November 30 and May 31,

respectively). Payments will be calculated by multiplying the Trust's assets under management (in millions) by \$15.84, then dividing this number by two for the six month retainer payment. The six-month retainer will be allocated equally among each Fund in the Amplify Investments Fund Complex. Trustees are also reimbursed for travel and out-of-pocket expenses incurred in connection with all meetings.

The following table sets forth the estimated compensation to be earned by each Independent Trustee (including reimbursement for travel and out-of-pocket expenses) for services to the Fund and the aggregate compensation paid to them for services to the Amplify Investments Fund Complex, for the fiscal year ended October 31, 2021. The Trust has no retirement or pension plans. The officers and Trustees who are "interested persons" as designated above serve without any compensation from the Trust. The Trust has no employees. Its officers are compensated by Amplify Investments.

NAME OF TRUSTEE	ESTIMATED COMPENSATION FROM THE FUND	ESTIMATED TOTAL COMPENSATION FROM THE AMPLIFY INVESTMENTS FUND COMPLEX
Michael DiSanto	\$4,647	\$102,918
Rick Powers	\$4,647	\$102,918
Mark Tucker	\$4,647	\$102,918

Interested and Independent Trustees

The following table sets forth the dollar range of equity securities beneficially owned by the Interested and Independent Trustees in the Fund and all funds overseen by the Trustees in the Amplify Investments Fund Complex as of December 31, 2021:

TRUSTEE	DOLLAR RANGE OF EQUITY SECURITIES IN THE FUND	AGGREGATE DOLLAR RANGE OF EQUITY SECURITIES IN ALL REGISTERED INVESTMENT COMPANIES OVERSEEN BY TRUSTEE IN THE AMPLIFY INVESTMENTS FUND COMPLEX
<i>Interested Trustees</i>		
Christian Magoon	N/A	\$10,001 - \$50,000
John Phillips	N/A	\$10,001 - \$50,000
<i>Independent Trustees</i>		
Michael DiSanto	N/A	\$1 - \$10,000
Rick Powers	N/A	N/A
Mark Tucker	N/A	\$10,001 - \$50,000

As of December 31, 2021, the Independent Trustees of the Trust and immediate family members did not own beneficially or of record any class of securities of an investment adviser or principal underwriter of the Fund or any person directly or indirectly controlling, controlled by, or under common control with an investment adviser or principal underwriter of the Fund.

As of January 27, 2022, the officers and Trustees, in the aggregate, owned less than 1% of the shares of the Fund.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of a fund. A control person is one who owns, either directly or indirectly, more than 25% of the voting securities of a company or acknowledges the existence of control.

INVESTMENT ADVISER AND OTHER SERVICE PROVIDERS

Investment Adviser

Amplify Investments LLC, 310 South Hale Street, Wheaton, Illinois 60187, serves as the investment adviser to the Fund. Amplify Investments is a Delaware limited liability company with a sole member, Amplify Holding Company LLC. Amplify Investments discharges its responsibilities subject to the policies of the Board of Trustees. Amplify Investments also administers the Trust’s business affairs, provides office facilities and equipment and certain clerical, bookkeeping and administrative services, and permits any of its officers or employees to serve without compensation as Trustees or officers of the Trust if elected to such positions.

Pursuant to an investment management agreement between Amplify Investments and the Trust, on behalf of the Fund (the “*Investment Management Agreement*”), Amplify Investments oversees the investment of the Fund assets and is responsible for paying all expenses of the Fund, excluding the fee payments under the Investment Management Agreement, interest, taxes, brokerage commissions, acquired fund fees and expenses and other expenses connected with the execution of portfolio transactions, distribution and service fees payable pursuant to a Rule 12b-1 plan, if any, and extraordinary expenses. The Fund has agreed to pay Amplify Investments an annual management fee equal to a percentage of its daily net assets, as detailed in the below table.

Management Fee

<i>Fund</i>	<i>Fee</i>
Amplify Inflation Fighter ETF	0.85%

Under the Investment Management Agreement, Amplify Investments shall not be liable for any loss sustained by reason of the purchase, sale or retention of any security, whether or not such purchase, sale or retention shall have been based upon the investigation and research made by any other individual, firm or corporation, if such recommendation shall have been selected with due care and in good faith, except loss resulting from willful misfeasance, bad faith, or gross negligence on the part of Amplify Investments in the performance of its obligations and duties, or by reason of its reckless disregard of its obligations and duties. The Investment Management Agreement is in place for the original initial two year term, and thereafter only if approved annually by the Board of Trustees, including a majority of the Independent Trustees. The Investment Management Agreement terminates automatically upon assignment and is terminable at any time

without penalty as to the Fund by the Board of Trustees, including a majority of the Independent Trustees, or by vote of the holders of a majority of the Fund's outstanding voting securities on 60 days' written notice to Amplify Investments, or by Amplify Investments on 60 days' written notice to the Fund.

Sub-Adviser.

Amplify Investments has retained Toroso Investments, LLC ("*Toroso*" or the "*Sub-Adviser*"), a Delaware limited liability company, located at 898 North Broadway, Suite 2, Massapequa, New York 11578, to act as sub-adviser to the Fund pursuant to a sub-advisory agreement (the "*Sub-Advisory Agreement*").

Pursuant to the Sub-Advisory Agreement, Amplify Investments has agreed to pay for the services provided by the Sub-Adviser through sub-advisory fees. Amplify Investments is responsible for paying the entire amount of the Sub-Adviser's fee for the Fund. The Fund does not directly pay the Sub-Adviser.

Toroso receives a sub-advisory fee that is equal to the greater of (1) \$15,000 per annum or (2) 0.010% per annum of the average daily net assets of the Fund. The Adviser is responsible for paying the entire amount of each Sub-Adviser's fee for the Fund.

Management of the Subsidiary. The Subsidiary is a wholly-owned subsidiary of the Fund. The Subsidiary is organized under the laws of the Cayman Islands and overseen by its own board of directors. The Fund is the sole shareholder of the Subsidiary, and it is currently expected that shares of the Subsidiary will not be sold or offered to other investors. The Fund and the Subsidiary in the aggregate are managed to comply with the compliance policies and procedures of the Fund. As a result, in managing the Fund's and the Subsidiary's portfolios, Toroso will comply with the investment policies and restrictions that apply to the management of the Fund and the Subsidiary (on a consolidated basis), and, in particular, to the requirements relating to leverage, liquidity, brokerage, capital structure and the timing and method of the valuation of the Fund's and the Subsidiary's portfolio investments. The Trust's Chief Compliance Officer oversees implementation of the Subsidiary's policies and procedures and makes periodic reports to the Trust's Board of Trustees regarding the Subsidiary's compliance with its policies and procedures. Toroso serves as the investment advisor of the Subsidiary and oversees management of the investments of the Subsidiary's assets on a discretionary basis. The Subsidiary does not pay Toroso a management fee for its services. The Subsidiary has also entered into separate contracts for the provision of custody, transfer agency and audit services. U.S. Bank serves as the custodian to the Subsidiary. The Subsidiary will comply with the provisions relating to affiliated transactions and custody set forth in Section 17 of the 1940 Act.

Portfolio Managers. The portfolio managers are primarily responsible for the day-to-day management of the Fund. There are currently two portfolio managers, as follows:

Michael Venuto. Mr. Venuto is a co-founder and has been the Chief Investment Officer of Toroso since 2012. Mr. Venuto is also currently a Managing Director of Tidal Growth Consultants. Mr. Venuto is an ETF industry veteran with over a decade of experience in the

design and implementation of ETF-based investment strategies. Previously, he was Head of Investments at Global X Funds where he provided portfolio optimization services to institutional clients. Before that, he was Senior Vice President at Horizon Kinetics where his responsibilities included new business development, investment strategy and client and strategic initiatives.

David Dziekanski. Mr. Dziekanski is a portfolio manager and member of the Toroso investment Committee. Before joining Toroso, he was Vice President and Portfolio Strategist at Ladenburg Thalmann Asset Management (LTAM), working on over \$1.8 billion in ETF and mutual fund assets. Previously, he held positions in wealth management, fixed income, and securities trading in world leading organizations such as Morgan Stanley, Bear Stearns, AIM Securities and Smith Barney. David was a triple major in mathematics, finance and economics at Washington University in St Louis and earned a MS in Finance.

Qiao Duan. Ms. Duan serves as Portfolio Manager at Toroso focusing on strategy implementation and trade execution, having joined the firm in October 2020. From February 2017 to October 2020, she was an execution Portfolio Manager at Exponential ETFs, where she managed research and analysis relating to all Exponential ETF strategies. Ms. Duan received a Master of Science in Quantitative Finance and Risk Management from the University of Michigan in 2016 and a Bachelor of Science in Mathematics and Applied Mathematics from Xiamen University in 2014. She holds the CFA designation.

Compensation. Mr. Raguass, Mr. Dziekanski and Ms. Duan are each compensated by Toroso with a fixed salary and discretionary bonus based on the financial performance and profitability of Toroso and not based on the performance of the Funds for which each acts as portfolio manager. Each is also eligible for deferred compensation.

Ownership of Fund Securities.

As of January 27, 2022, none of the portfolio managers owned any shares of the Fund.

Accounts Managed by the Portfolio Managers.

In addition to the Fund, the portfolio managers are responsible for the day-to-day management of certain other accounts, as listed below. The information below is provided as of December 31, 2021.

PORTFOLIO MANAGERS	REGISTERED INVESTMENT COMPANIES NUMBER OF ACCOUNTS (\$ ASSETS)	OTHER POOLED INVESTMENT VEHICLES NUMBER OF ACCOUNTS (\$ ASSETS)	OTHER ACCOUNTS NUMBER OF ACCOUNTS (\$ ASSETS)
Michael Venuto	38 (\$5,699,049,060.51)	0 (\$0)	579 (\$281,566,990.57)
David Dziekanski	1 (\$20,130,784.64)	0 (\$0)	534 (\$229,662,124.02)
Qiao Duan	5 (\$83,480,958.00)	0 (\$0)	0 (\$0)

Conflicts. The portfolio managers have day-to-day management responsibilities with respect to other investments accounts and, accordingly, may be presented with potential or actual conflicts of interest.

The management of other accounts may result in the portfolio manager devoting unequal time and attention to the management of the Fund and/or other accounts. In approving the Investment Advisory Agreement and respective Sub-Advisory Agreements, the Board was satisfied that the portfolio managers would be able to devote sufficient attention to the management of the Fund and that the Adviser and each Sub-Adviser seek to manage such competing interests for the time and attention of the portfolio managers.

With respect to securities transactions for the Fund, the applicable Sub-Adviser determines which broker to use to execute each transaction, consistent with its duty to seek best execution of the transaction. For buy or sell transactions considered simultaneously for the Fund and other accounts, orders are placed at the same time. Each Sub-Adviser uses its best efforts to ensure that no client is treated unfairly in relation to any other client over time in the allocation of securities or the order of the execution of transactions. Each Sub-Adviser generally allocates trades on the basis of assets under management so that the securities positions represent equal exposure as a percentage of total assets of each client. The Fund and client accounts are not generally invested in thinly traded or illiquid securities; therefore, conflicts in fulfilling investment opportunities are to some extent minimized. If an aggregated trade order is not substantially filled, it will generally be allocated pro rata.

Fund Administration

General Information. The administrator, fund accountant and transfer agent for the Fund is U.S. Bancorp Fund Services, LLC (“USBFS”, “Administrator”, “Fund Accountant” or “Transfer Agent”), which has its principal office at 615 East Michigan Street, Milwaukee, Wisconsin 53202 and is primarily in the business of providing administrative, fund accounting and stock transfer services to retail and institutional mutual funds. USBFS performs these services pursuant to three separate agreements, a fund administration servicing agreement, a fund accounting servicing agreement and a transfer agent servicing agreement.

Administration Agreement. Pursuant to the fund administration servicing agreement with the Trust (“*Administration Agreement*”), USBFS provides all administrative services necessary for the Fund, other than those provided by Amplify Investments, subject to the supervision of the Board of Trustees. USBFS employees generally will not be officers of the Fund for which they provide services.

The Administration Agreement is terminable by the Board or Amplify Investments on ninety (90) days’ written notice and may be assigned provided the non-assigning party provides prior written consent. The Administration Agreement shall remain in effect for three years from the date of its initial approval, unless amended, and its renewal is subject to approval of the Board for periods thereafter. The Administration Agreement provides that in the absence of the USBFS’ refusal or willful failure to comply with the Agreement or bad faith, negligence or willful misconduct on the part of USBFS, USBFS shall not be liable for any action or failure to act in accordance with its duties thereunder.

Under the Administration Agreement, USBFS provides all administrative services, including, without limitation: (i) providing services of persons competent to perform such administrative and clerical functions as are necessary to provide effective administration of The Fund; (ii) overseeing the performance of administrative and professional services to the Fund by others, including the Fund’s custodian, as applicable; (iii) preparing, but not paying for, the periodic updating of the Fund’s Registration Statement, Prospectus and Statement of Additional Information in conjunction with Fund counsel, including the printing of such documents for the purpose of filings with the SEC and state securities administrators, preparing the Fund’s tax returns, and preparing reports to the Fund’s shareholders and the SEC; (iv) calculation of yield and total return for the Fund; (v) monitoring and evaluating daily income and expense accruals, and sales and redemptions of Shares of the Fund; (vi) preparing in conjunction with Fund counsel, but not paying for, all filings under the securities or “Blue Sky” laws of such states or countries as are designated by the Distributor, which may be required to register or qualify, or continue the registration or qualification, of the Fund and/or its Shares under such laws; (vii) preparing notices and agendas for meetings of the Fund’s Board and minutes of such meetings in all matters required by the 1940 Act to be acted upon by the Board; and (viii) monitoring periodic compliance with respect to all requirements and restrictions of the 1940 Act, the Internal Revenue Code and the Prospectus.

Accounting Agreement. Pursuant to the fund accounting servicing agreement with the Trust (the “*Fund Accounting Agreement*”), USBFS provides the Fund with all accounting services, including, without limitation: (i) daily computation of NAV; (ii) maintenance of security ledgers and books and records as required by the 1940 Act; (iii) production of the Fund’s listing of portfolio securities and general ledger reports; (iv) reconciliation of accounting records; and (v) maintaining certain books and records described in Rule 31a-1 under the 1940 Act, and reconciling account information and balances among the custodian and Amplify Investments.

For the administrative and fund accounting services rendered to the Fund by USBFS, USBFS is paid an annual fee based on the average net assets of the Fund, subject to a minimum annual fee. Pursuant to the Funds’ unitary management fee structure, Amplify Investments is

responsible for paying for the services provided by USBFS, and the Fund does not directly pay USBFS.

Transfer and Dividend Agent. USBFS acts as the Fund's transfer and dividend agent. The Fund pays USBFS for its services as its transfer and dividend agent.

Custodian

U.S. Bank National Association, 1555 North Rivercenter Drive, Suite 302, Milwaukee, WI 53212, serves as custodian (the "*Custodian*") for the Fund's cash and securities. Pursuant to a custodian servicing agreement with the Fund (the "*Custodian Agreement*"), it is responsible for maintaining the books and records of the Fund's portfolio securities and cash. The Custodian does not assist in, and is not responsible for, investment decisions involving the assets of the Fund.

Securities Lending Agents

The Fund may participate in securities lending arrangements whereby the Fund lends certain of its portfolio securities to brokers, dealers, and financial institutions (not with individuals) to receive additional income and increase the rate of return of its portfolio. U.S. Bank, N.A. serves as the Fund's securities lending agent and is responsible for (i) negotiating the fees (rebates) of securities loans within parameters approved by the Board; (ii) delivering loaned securities to the applicable borrower(s), a list of which has been approved by the Board; (iii) investing any cash collateral received for a securities loan in investments pre-approved by the Board; (iv) receiving the returned securities at the expiration of a loan's term; (v) daily monitoring of the value of the loaned securities and the collateral received; (vi) notifying borrowers to make additions to the collateral, when required; (vii) accounting and recordkeeping services as necessary for the operation of the securities lending program, and (viii) establishing and operating a system of controls and procedures to ensure compliance with its obligations under the Fund's securities lending program.

Distributor

Foreside Fund Services, LLC (the "*Distributor*") serves as distributor and principal underwriter of the Creation Units of the Fund. Its principal address is Three Canal Plaza, Suite 100, Portland, ME 04101. The Distributor has entered into a Distribution Agreement with the Trust pursuant to which it distributes Fund shares. Shares are continuously offered for sale by the Fund through the Distributor only in Creation Units, as described below under the heading "Creation and Redemption of Creation Units."

Amplify Investments may, from time to time and from its own resources, pay, defray or absorb costs relating to distribution, including payments out of its own resources to the Distributor, or to otherwise promote the sale of shares. Amplify Investments' available resources to make these payments include profits from advisory fees received from the Fund. The services Amplify Investments may pay for include, but are not limited to, advertising and attaining access to certain

conferences and seminars, as well as being presented with the opportunity to address investors and industry professionals through speeches and written marketing materials.

Since the inception of the Fund, there has been no underwriting commissions with respect to the sale of Fund shares, and the Distributor did not receive compensation on redemptions for the Fund for that period.

12b-1 Plan. The Trust has adopted a Plan of Distribution pursuant to Rule 12b-1 under the 1940 Act (the “*Plan*”) pursuant to which the Fund may reimburse the Distributor up to a maximum annual rate of 0.25% of its average daily net assets. The Fund does not currently pay, and the Fund has no current intention to pay, 12b-1 fees.

However, in the event 12b-1 fees are charged in the future, under the Plan and as required by Rule 12b-1, the Trustees will receive and review after the end of each calendar quarter a written report provided by the Distributor of the amounts expended under the Plan and the purpose for which such expenditures were made. With the exception of the Distributor and its affiliates, no “interested person” of the Trust (as that term is defined in the 1940 Act) and no Trustee of the Trust has a direct or indirect financial interest in the operation of the Plan or any related agreement.

Aggregations. Shares of the Fund in less than Creation Units are not distributed by the Distributor. The Distributor will deliver the Prospectus and, upon request, this SAI to Authorized Participants purchasing Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority (“*FINRA*”).

The Distribution Agreement provides that it may be terminated at any time, without the payment of any penalty, on at least 60 days’ written notice by the Trust to the Distributor (i) by vote of a majority of the Independent Trustees; or (ii) by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund. The Distribution Agreement will terminate automatically in the event of its assignment (as defined in the 1940 Act).

The Distributor may also enter into agreements with participants that utilize the facilities of the Depository Trust Company (the “*DTC Participants*”), which have international, operational, capabilities and place orders for Creation Units of the Fund’s shares. Participating Parties (as defined in “Procedures for Creation of Creation Units” below) shall be DTC Participants (as defined in “DTC Acts as Securities Depository for Fund Shares” below).

BROKERAGE ALLOCATIONS

The Sub-Adviser is responsible for decisions to buy and sell securities for the Fund and for the placement of the Fund’s securities business, the negotiation of the commissions to be paid on brokered transactions, the prices for principal trades in securities, and the allocation of portfolio brokerage and principal business. It is the policy of Amplify Investments to seek the best execution at the best security price available with respect to each transaction, and with respect to brokered transactions in light of the overall quality of brokerage and research services provided to Amplify Investments and its clients. The best price to the Fund means the best net price without regard to

the mix between purchase or sale price and commission, if any. Purchases may be made from underwriters, dealers, and, on occasion, the issuers. Commissions will be paid on the Fund's futures transactions, if any. The purchase price of portfolio securities purchased from an underwriter or dealer may include underwriting commissions and dealer spreads. The Fund may pay mark-ups on principal transactions. In selecting broker-dealers and in negotiating commissions, the Sub-Adviser considers, among other things, the firm's reliability, the quality of its execution services on a continuing basis and its financial condition.

Section 28(e) of the Securities Exchange Act of 1934, as amended (the "1934 Act") permits an investment adviser, under certain circumstances, to cause an account to pay a broker or dealer who supplies brokerage and research services a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction. Brokerage and research services include (i) furnishing advice as to the value of securities, the advisability of investing, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (ii) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and the performance of accounts; and (iii) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement, and custody). Such brokerage and research services are often referred to as "soft dollars." Amplify Investments has advised the Board of Trustees that it does not currently intend to use soft dollars.

Notwithstanding the foregoing, in selecting brokers, the Sub-Adviser may in the future consider investment and market information and other research, such as economic, securities and performance measurement research, provided by such brokers, and the quality and reliability of brokerage services, including execution capability, performance, and financial responsibility. Accordingly, the commissions charged by any such broker may be greater than the amount another firm might charge if the Sub-Adviser determines in good faith that the amount of such commissions is reasonable in relation to the value of the research information and brokerage services provided by such broker to the Sub-Adviser or the Trust. In addition, the Sub-Adviser must determine that the research information received in this manner provides the Fund with benefits by supplementing the research otherwise available to the Fund. The Investment Management Agreement provides that such higher commissions will not be paid by the Fund unless the Adviser determines in good faith that the amount is reasonable in relation to the services provided. The investment advisory fees paid by the Fund to Amplify Investments under the Investment Management Agreement would not be reduced as a result of receipt by Amplify Investments of research services.

The Sub-Adviser places portfolio transactions for other advisory accounts advised by it, and research services furnished by firms through which the Fund effects securities transactions may be used by the Sub-Adviser in servicing all of its accounts; not all of such services may be used by the Sub-Adviser in connection with the Fund. The Sub-Adviser believes it is not possible to measure separately the benefits from research services to each of the accounts (including the Fund) advised by it. Because the volume and nature of the trading activities of the accounts are not uniform, the amount of commissions in excess of those charged by another broker paid by each account for brokerage and research services will vary. However, the Sub-Adviser believes such costs to the Fund will not be disproportionate to the benefits received by the Fund on a continuing

basis. The Sub-Adviser seeks to allocate portfolio transactions equitably whenever concurrent decisions are made to purchase or sell securities by the Fund and another advisory account. In some cases, this procedure could have an adverse effect on the price or the amount of securities available to the Fund. In making such allocations between the Fund and other advisory accounts, the main factors considered by the Sub-Adviser are the respective investment objectives, the relative size of portfolio holding of the same or comparable securities, the availability of cash for investment and the size of investment commitments generally held.

ADDITIONAL INFORMATION

Book Entry Only System. The following information supplements and should be read in conjunction with the Prospectus.

DTC Acts as Securities Depository for Fund Shares. Shares of the Fund are represented by securities registered in the name of The Depository Trust Company (“DTC”) or its nominee, Cede & Co., and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants (the “DTC Participants”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities, certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the New York Stock Exchange (the “NYSE”) and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the “Indirect Participants”).

Beneficial ownership of shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in shares (owners of such beneficial interests are referred to herein as “Beneficial Owners”) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase and sale of shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to a letter agreement between DTC and the Trust, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be

transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participants a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Fund distributions shall be made to DTC or its nominee, as the registered holder of all Fund shares. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a "street name," and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

Policy Regarding Disclosure of Portfolio Holdings. The Trust has adopted a policy regarding the disclosure of information about the Fund's portfolio holdings. The Board of Trustees must approve all material amendments to this policy. The Fund's portfolio holdings are publicly disseminated each day the Fund is open for business through financial reporting and news services, including publicly accessible Internet websites. In addition, a basket composition file, which includes the security names and share quantities to deliver in exchange for Fund shares, together with estimates and actual cash components, is publicly disseminated each day the NYSE is open for trading via the National Securities Clearing Corporation ("NSCC"). The basket represents one Creation Unit of the Fund. The Fund's portfolio holdings are also available on the Fund's website at <http://www.amplifyetfs.com>. The Trust, Amplify Investments and the Distributor will not disseminate non-public information concerning the Trust.

Quarterly Portfolio Schedule. The Trust is required to disclose on a quarterly basis the complete schedule of the Fund's portfolio holdings with the SEC on Form N-PORT. Form N-PORT for the Trust is available on the SEC's website at <https://www.sec.gov>. The Fund's Form N-PORT may also be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Trust's Forms N-PORT are available without charge, upon request, by calling 1-855-267-3837 or by writing to Amplify ETF Trust, 310 South Hale Street, Wheaton, Illinois 60187.

Codes of Ethics. In order to mitigate the possibility that the Fund will be adversely affected by personal trading, the Trust, Amplify Investments, the Sub-Adviser and the Distributor have adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These Codes of Ethics contain policies restricting securities trading in personal accounts access persons, Trustees and others who normally come into possession of information on portfolio transactions. Personnel subject to the Codes of Ethics may invest in securities that may be purchased or held by the Fund; however, the Codes of Ethics require that each transaction in such securities be reviewed by the Compliance Department. These Codes of Ethics are on public file with, and are available from, the SEC.

PROXY VOTING POLICIES AND PROCEDURES

The Trust has adopted a proxy voting policy that seeks to ensure that proxies for securities held by the Fund are voted consistently with the best interests of the Fund.

The Board has delegated to Amplify Investments the proxy voting responsibilities for the Fund and has directed Amplify Investments to vote proxies consistent with the Fund's best interests. In order to facilitate the proxy voting process, Broadridge Investor Communication Solutions, Inc. ("*Broadridge*") has been retained to provide access to a selection of third-party providers that are available to provide proxy vote recommendations and research. Votes are cast through the Broadridge ProxyEdge® platform ("*ProxyEdge*"). With the assistance of Broadridge, Egan-Jones Proxy Services ("*Egan-Jones*") has been selected to provide vote recommendations based on its own internal guidelines. The services provided to Amplify Investments through Egan-Jones include access to Egan-Jones' research analysis and their voting recommendations. Services provided to Amplify Investments through ProxyEdge include receipt of proxy ballots, vote execution based upon the recommendations of Egan-Jones, access to the voting recommendations of Egan-Jones, as well as reporting, auditing, working with custodian banks, and consulting assistance for the handling of proxy voting responsibilities. ProxyEdge also maintains proxy voting records and provides Amplify Investments with reports that reflect the proxy voting activities of client portfolios.

The fundamental guideline followed by Amplify Investments in voting proxies is to make every effort to confirm that the manner in which shares are voted is in the best interest of clients and the value of the investment. Absent special circumstances of the types described below, it is the policy of Adviser to exercise its proxy voting discretion in accordance with the Egan-Jones Proxy Voting Principles and Guidelines set forth in Exhibit A.

Information regarding how the Fund voted proxies (if any) relating to portfolio securities during the most recent 12-month period ended June 30 is available upon request and without charge on the Fund's website at <https://www.amplifyetfs.com>, by calling 1-855-267-3837 or by accessing the SEC's website at <https://www.sec.gov>.

CREATION AND REDEMPTION OF CREATION UNITS

General

ETFs, such as the Fund, generally issue and redeem their shares in primary market transactions through a creation and redemption mechanism and do not sell or redeem individual shares. Instead, financial entities, known as “Authorized Participants,” have contractual arrangements with an ETF or one of the ETF’s service providers to purchase and redeem ETF shares directly with the ETF in large blocks of shares known as “Creation Units.” Prior to start of trading on each business day, an ETF publishes through the NSCC the “basket” of securities, cash or other assets that it will accept in exchange for a Creation Unit of the ETF’s shares. An Authorized Participant that wishes to effectuate a creation of an ETF’s shares deposits with the ETF the “basket” of securities, cash or other assets identified by the ETF that day, and then receives the Creation Unit of the ETF’s shares in return for those assets. After purchasing a Creation Unit, the Authorized Participant may continue to hold the ETF’s shares or sell them in the secondary market. The redemption process is the reverse of the purchase process: the authorized participant redeems a Creation Unit of ETF shares for a basket of securities, cash or other assets. The combination of the creation and redemption process with secondary market trading in ETF shares and underlying securities provides arbitrage opportunities that are designed to help keep the market price of ETF shares at or close to the NAV per share of the ETF.

An “Authorized Participant” is a member or participant of a clearing agency registered with the SEC that has a written agreement with the Fund or one of its service providers that allows the Authorized Participant to place orders for the purchase or redemption of Creation Units (a “*Participant Agreement*”). Orders to purchase Creation Units must be delivered through an Authorized Participant that has executed a Participant Agreement and must comply with the applicable provisions of such Participant Agreement. Investors wishing to purchase or sell shares generally do so on an exchange. Institutional investors other than Authorized Participants are responsible for making arrangements for a redemption request to be made through an Authorized Participant.

A “Business Day” is generally any day on which the NYSE, the Exchange and the Trust are open for business. As of the date of this SAI, the NYSE observes the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The Business Day on which an order to purchase or redeem Creation Units is received in proper form is referred to as the “Transmittal Date.”

Basket Composition and Custom Baskets.

Rule 6c-11(c)(3) under of the 1940 Act requires an ETF relying on the exemptions offered by Rule 6c-11 to adopt and implement written policies and procedures governing the construction of baskets and the process that the ETF will use for the acceptance of baskets. In general, in connection with the construction and acceptance of baskets, the Adviser may consider various factors, including, but not limited to: (1) whether the securities, assets and other positions comprising a basket are consistent with the ETF’s investment objective(s), policies and disclosure; (2) whether the securities, assets and other positions can legally and readily be acquired, transferred and held by the ETF and/or Authorized Participant(s), as applicable; (3) whether to utilize cash,

either in lieu of securities or other instruments or as a cash balancing amount; and (4) in the case of an ETF that tracks an index, whether the securities, assets and other positions aid index tracking.

The Fund may utilize a pro-rata basket or a custom basket in reliance on Rule 6c-11. A “pro-rata basket” is a basket that is a pro rata representation of the ETF’s portfolio holdings, except for minor deviations when it is not operationally feasible to include a particular instrument within the basket, except to the extent that the Fund utilized different baskets in transactions on the same Business Day.

Rule 6c-11 defines “custom baskets” to include two categories of baskets. First, a basket containing a non-representative selection of the ETF’s portfolio holdings would constitute a custom basket. These types of custom baskets include, but are not limited to, baskets that do not reflect: (i) a pro rata representation of the Fund’s portfolio holdings; (ii) a representative sampling of an ETF’s portfolio holdings; or (iii) changes due to a rebalancing or reconstitution of an ETF’s securities market index, if applicable. Second, if different baskets are used in transactions on the same Business Day, each basket after the initial basket would constitute a custom basket. For example, if an ETF exchanges a basket with either the same or another Authorized Participant that reflects a representative sampling that differs from the initial basket, that basket (and any such subsequent baskets) would be a custom basket. Similarly, if an ETF substitutes cash in lieu of a portion of basket assets for a single Authorized Participant, that basket would be a custom basket. The Adviser’s Rule 6c-11 Committee defines any deviation from a pro-rata basket to be a “custom basket.”

Under a variety of circumstances, an ETF and its shareholders may benefit from the flexibility afforded by custom baskets. In general terms, the use of custom baskets may reduce costs, increase efficiency and improve trading. Because utilizing custom baskets provides a way for an ETF to add, remove and re-weight portfolio securities without transacting in the market, it may help the ETF to avoid transaction costs and adverse tax consequences. Rule 6c-11 provides an ETF with flexibility to use “custom baskets” if the ETF has adopted written policies and procedures that: (1) set forth detailed parameters for the construction and acceptance of custom baskets that are in the best interests of the ETF and its shareholders, including the process for any revisions to, or deviations from, those parameters; and (2) specify the titles or roles of employees of the ETF’s investment adviser who are required to review each custom basket for compliance with those parameters.

The use of baskets that do not correspond to pro rata to an ETF’s portfolio holdings has historically created concern that an Authorized Participant could take advantage of its relationship with an ETF and pressure the ETF to construct a basket that favors an Authorized Participant to the detriment of the ETF’s shareholders. For example, because ETFs rely on Authorized Participants to maintain the secondary market by promoting an effective arbitrage mechanism, an Authorized Participant holding less liquid or less desirable securities potentially could pressure an ETF into accepting those securities in its basket in exchange for liquid ETF shares (*i.e.*, dumping). An Authorized Participant also could pressure the ETF into including in its basket certain desirable securities in exchange for ETF shares tendered for redemption (*i.e.*, cherry-picking). In either case,

the ETF's other investors would be disadvantaged and would be left holding shares of an ETF with a less liquid or less desirable portfolio of securities. The Adviser has adopted policies and procedures designed to mitigate these concerns but there is ultimately no guarantee that such policies and procedures will be effective.

Basket Dissemination

Basket files are published for consumption through the NSCC, a subsidiary of Depository Trust & Clearing Corporation, and can be utilized for pricing, creations, redemptions, rebalancing and custom scenarios. In most instances, pro rata baskets are calculated and supplied by the ETF's custodial bank based on ETF holdings, whereas non-pro rata, custom and forward-looking pro rata baskets are calculated by a fund's investment adviser and disseminated by the ETF's custodial bank through the NSCC process. Prior to the opening of business of the Exchange (currently 9:30 a.m., Eastern Time), the Fund publishes this information for the day (subject to correction of any errors) and is made available through the NSCC to effectuate creations or redemptions of Creation Units of the Fund until the next list is announced on the next Business Day.

Placement of Creation or Redemption Orders

All orders to purchase or redeem Creation Units are to be governed according to the applicable Participant Agreement that each Authorized Participant has executed. In general, all orders to purchase or redeem Creation Units must be received by the transfer agent in the proper form required by the Participant Agreement no later than the closing time of the regular trading session of the NYSE (ordinarily 4:00 p.m. Eastern Standard Time) on each day the NYSE is open for business (the "*Closing Time*") in order for the purchase or redemption of Creation Units to be effected based on the NAV of shares of the Fund as next determined on such date after receipt of the order in proper form. At its discretion, the Fund may also require an Authorized Participant to submit orders to purchase or redeem Creation Units be placed earlier in the day (such as instances where an applicable market for a security comprising a creation or redemption basket closes earlier than usual).

All orders from investors who are not Authorized Participants to create Creation Units shall be placed with an Authorized Participant, in the form required by such Authorized Participant. In addition, the Authorized Participant may request the investor to make certain representations or enter into agreements with respect to the order, *e.g.*, to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to create Creation Units of the Fund have to be placed by the investor's broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement. Those persons placing orders should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of Deposit Instruments (as defined below) and Cash Component (as defined below). Those placing orders for Creation Units through the Clearing

Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the end of the Order Window. Order for Creation Units that are effected outside of the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. The delivery of Creation Units created through the Clearing Process will occur no later than the second Business Day following the Transmittal Date (T+2).

A “Deposit Instrument” (an in-kind deposit of a designated portfolio of securities and other instruments) must be delivered to the Trust through DTC or NSCC, and Deposit Instruments which are non-U.S. securities, if applicable, must be delivered to an account maintained at the applicable local subcustodian of the Trust on or before the International Contractual Settlement Date, as defined below. If a Deposit Security is an ADR or similar domestic instrument, it may be delivered to the Custodian. Deposit Instruments must be delivered to the Fund through the applicable processes set forth in the Participant Agreement.

Beneficial Owners of the Fund’s shares may sell their shares in the secondary market, but must accumulate enough shares to constitute a Creation Unit to redeem through the Fund. The Fund will not redeem shares in amounts less than Creation Units and there can be no assurance that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur customary brokerage and other costs in connection with assembling a sufficient number of the Fund’s shares to constitute a redeemable Creation Unit. Redemption requests must be placed by or through an Authorized Participant. Creation Units will be redeemable at their NAV per Creation Unit next determined after receipt of a request for redemption by the Fund.

In connection with taking delivery of shares of non-U.S. Fund Securities, if applicable, upon redemption of shares of the Fund, a redeeming Beneficial Owner, or Authorized Participant acting on behalf of such Beneficial Owner, must maintain appropriate security arrangements with a qualified broker-dealer, bank or other custody provider in each jurisdiction in which any of the Fund Securities are customarily traded, to which account the Fund Securities will be delivered.

To the extent contemplated by an Authorized Participant’s agreement, in the event the Authorized Participant has submitted a redemption request in proper form but is unable to transfer all or part of the Creation Unit to be redeemed to the Fund’s transfer agent, the transfer agent will nonetheless accept the redemption request in reliance on the undertaking by the Authorized Participant to deliver the missing shares as soon as possible. Such undertaking shall be secured by the Authorized Participant’s delivery and maintenance of collateral consisting of cash having a value (marked to market daily) at least equal to 102% (105% for international securities), which Amplify Investments may change from time to time, of the value of the missing shares.

Purchase and Issuance of Creation Units

The consideration for purchase of a Creation Unit of shares of the Fund generally consists of Deposit Instruments and an amount of cash computed as described below (the “Cash Component” sometimes also referred to as the “Balancing Amount”). Together, the Deposit

Instruments (and/or any cash with respect to cash purchases and cash-in-lieu amounts) and the Cash Component constitute the “Fund Deposit,” which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the “Deposit Amount” (an amount equal to the aggregate market value of the Deposit Instruments and/or cash in lieu of all or a portion of the Deposit Instruments).

A Creation Unit will generally not be issued until the transfer of good title to the applicable Fund of the Deposit Instruments and the payment of the Cash Component, the Creation Transaction Fee (as discussed below) and any other required cash amounts have been completed. To the extent contemplated by the applicable Participant Agreement, Creation Units of the Fund will be issued to such Authorized Participant notwithstanding the fact that the corresponding Fund Deposits have not been received in part or in whole, in reliance on the undertaking of the Authorized Participant to deliver the missing Deposit Instruments as soon as possible, which undertaking shall be secured by such Authorized Participant’s delivery and maintenance of collateral consisting of cash in the form of U.S. dollars in immediately available funds having a value (marked to market daily) at least equal to 102% (105% for international securities) which Amplify Investments may change from time to time of the value of the missing Deposit Instruments. Such cash collateral must be delivered no later than 2:00 p.m., Eastern Time, on the contractual settlement date. The Participant Agreement will permit The Fund to use such collateral to buy the missing Deposit Instruments at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the applicable Fund of purchasing such securities and the value of the collateral.

Delivery of Redemption Proceeds

Deliveries of securities to Authorized Participants in connection with redemption orders are generally expected to be made within two Business Days. Due to the schedule of holidays in certain countries, however, the delivery of in-kind redemption proceeds for the Fund may take longer than two Business Days after the day on which the redemption request is received in proper form. Section 22(e) of the 1940 Act generally prohibits a registered open-end management investment company from postponing the date of satisfaction of redemption requests for more than seven days after the tender of a security for redemption. This prohibition can cause operational difficulties for ETFs that hold foreign investments and exchange in-kind baskets for Creation Units. For example, local market delivery cycles for transferring foreign investments to redeeming investors, together with local market holiday schedules, can sometimes require a delivery process in excess of seven days. However, Rule 6c-11 grants relief from Section 22(e) to permit an ETF to delay satisfaction of a redemption request for more than seven days if a local market holiday, or series of consecutive holidays, or the extended delivery cycles for transferring foreign investments to redeeming Authorized Participants, or the combination thereof prevents timely delivery of the foreign investment included in the ETF’s basket. Under this exemption, an ETF must deliver foreign investments as soon as practicable, but in no event later than 15 days after the tender to the ETF. The exemption therefore will permit a delay only to the extent that additional time for settlement is actually required, when a local market holiday, or series of consecutive holidays, or the extended delivery cycles for transferring foreign investments to redeeming authorized

participants prevents timely delivery of the foreign investment included in the ETF's basket. If a foreign investment settles in less than 15 days, Rule 6c-11 requires an ETF to deliver it pursuant to the standard settlement time of the local market where the investment trades. Rule 6c-11 defines "foreign investment" as any security, asset or other position of the ETF issued by a foreign issuer (as defined by Rule 3b-4 under the 1934 Act), and that is traded on a trading market outside of the United States. This definition is not limited to "foreign securities," but also includes other investments that may not be considered securities. Although these other investments may not be securities, they may present the same challenges for timely settlement as foreign securities if they are transferred in kind.

The redemption proceeds for a Creation Unit generally consist of the Deposit Instruments—as announced on the Business Day of the request for redemption received in proper form—plus or minus cash in an amount equal to the difference between the net asset value of the Fund shares (per Creation Unit) being redeemed, as next determined on the Transmittal Date after receipt of a request in proper form on the Submission Date, and the aggregate market value of the Deposit Instruments (the "*Cash Redemption Amount*"), less the applicable Redemption Transaction Fee (as described below) and, if applicable, any operational processing and brokerage costs, transfer fees or stamp taxes. In the event that the Deposit Instruments have an aggregate market value greater than the net asset value of the Fund's shares (per Creation Unit), a compensating cash payment equal to the difference plus the applicable Redemption Transaction Fee and, if applicable, any operational processing and brokerage costs, transfer fees or stamp taxes, is required to be made by or through an Authorized Participant by the redeeming shareholder.

Creation and Redemption Orders Outside the Clearing Process

As described above, the Clearing Process is the process of creating or redeeming Creation Units through the Continuous Net Settlement System of the NSCC. Fund Deposits made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement with the Trust, the Distributor and the Administrator. A DTC Participant who wishes to place an order creating Creation Units to be effected outside the Clearing Process need not be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. The Fund Deposit transfer must be ordered by the DTC Participant on the Submission Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Trust by no later than 11:00 a.m., Eastern Time, of the next Business Day immediately following the Transmittal Date. All questions as to the number of Deposit Instruments to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination shall be final and binding. The cash equal to the Cash Component must be transferred directly to the Administrator through the Federal Reserve wire system in a timely manner so as to be received by the Administrator no later than 2:00 p.m., Eastern Time, on the next Business Day immediately following the Transmittal Date. An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor during the Order Window on the Submission Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed.

However, if the Administrator does not receive both the requisite Deposit Securities and the Cash Component by 11:00 a.m. and 2:00 p.m., respectively, on the next Business Day immediately following the Transmittal Date, such order will be cancelled. Upon written notice to the Distributor, such cancelled order may be resubmitted the following Business Day using the Fund Deposit as newly constituted to reflect the then current NAV of the Fund. The delivery of Creation Units so created will occur no later than the second Business Day following the Transmittal Date (T+2).

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Instruments as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the Shares on the Transmittal Date in proper form since in addition to available Deposit Instruments, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) 102% (105% for international securities) of the market value of the undelivered Deposit Securities (the "*Additional Cash Deposit*"). The order shall be deemed to be received on the Submission Date provided that the order is placed in proper form during the Order Window on such date and federal funds in the appropriate amount are deposited with the Administrator by 11:00 a.m., Eastern Time, on the Business Day following the Transmittal Date. If the order is not placed in proper form during the Order Window on the Submission Date or federal funds in the appropriate amount are not received by 11:00 a.m. on the Business Day following the Transmittal Date, then the order may be deemed to be rejected and the investor shall be liable to the Trust for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending delivery of the missing Deposit Instruments to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 102% (105% for international securities) of the daily marked to market value of the missing Deposit Instruments. To the extent that missing Deposit Instruments are not received by 1:00 p.m., Eastern Time, on the second Business Day following the Transmittal Date or in the event a mark to market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to purchase the missing Deposit Instruments. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Instruments exceeds the market value of such Deposit Instruments on the Transmittal Date by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Instruments have been properly received by the Administrator or purchased by the Trust and deposited into the Trust. In addition, a transaction fee will be charged in all cases. The delivery of Creation Units of the applicable Fund so created will occur no later than the second Business Day following the Transmittal Date. However, as discussed in the section below, the Fund reserves the right to settle Creation Unit transactions on a basis other than the second Business Day following the Transmittal Date to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances. The Authorized Participant shall be liable to the applicable Fund for losses, if any, resulting from unsettled orders.

Orders to redeem Creation Units outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC Participant who wishes to place an order for redemption of Creation Units to be effected outside the Clearing Process need not be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. An order to redeem Creation Units outside the Clearing Process is deemed received by the Administrator on the Transmittal Date if (i) such order is received by the Administrator during the Order Window on the Submission Date; (ii) such order is accompanied or preceded by the requisite number of shares of the applicable Fund and/or the Cash Redemption Amount specified in such order, which delivery must be made through DTC to the Administrator no later than 11:00 a.m. and 2:00 p.m., respectively, Eastern Time, on the next Business Day following the Transmittal Date (the “*DTC Cut-Off-Time*”); and (iii) all other procedures set forth in the Participant Agreement are properly followed.

After the Administrator has deemed an order for redemption outside the Clearing Process received, the Administrator will initiate procedures to transfer the requisite Fund Securities, which are expected to be delivered within two Business Days, and/or the Cash Redemption Amount to the Authorized Participant, on behalf of the redeeming Beneficial Owner, by the second Business Day following the Transmittal Date on which such redemption order is deemed received by the Administrator.

The calculation of the value of the Fund Securities and the Cash Redemption Amount to be delivered upon redemption will be made by the Administrator according to the Fund’s established evaluation procedures computed on the Transmittal Date. Therefore, if a redemption order in proper form is submitted to the Administrator by a DTC Participant during the Order Window on the Submission Date, and the requisite number of shares of the Fund are delivered to the custodian prior to the DTC Cut-Off-Time, then the value of the Fund Securities and/or the Cash Redemption Amount to be delivered will be determined by the Administrator on such Transmittal Date. If, however, a redemption order is submitted to the Administrator by a DTC Participant during the Order Window on the Submission Date, but either (1) the requisite number of shares of the Fund are not delivered by the DTC Cut-Off-Time as described above on the next Business Day following the Transmittal Date or (2) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Submission Date. In such case, the value of the Fund Securities and the Cash Redemption Amount to be delivered will be computed on the Business Day that such order is deemed received by the Administrator, *i.e.*, the Business Day on which the shares of the Fund are delivered through DTC to the Administrator by the DTC Cut-Off-Time on such Business Day pursuant to a properly submitted redemption order.

If it is not possible to effect deliveries of the Fund Securities, the Trust may in its discretion exercise its option to redeem such shares in cash, and the redeeming Beneficial Owner will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash which the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its shares based on the NAV of shares of the Fund next determined on the Transmittal Date (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust’s brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its

sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities which differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Fund could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular stock included in the Fund Securities applicable to the redemption of a Creation Unit may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of shares of the Fund to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of Shares or delivery instructions. The Trust also reserves the right to offer an “all cash” option for redemptions of Creation Units for the Fund.

Creation Transaction Fees

The Fund imposes fees in connection with the purchase of Creation Units. These fees may vary based upon various facts-based circumstances, including, but not limited to, the composition of the securities included in the Creation Unit or the countries in which the transactions are settled. The price for each Creation Unit will equal the daily NAV per share of the Fund times the number of shares in a Creation Unit, plus the fees described above and, if applicable, any operational processing and brokerage costs, transfer fees, stamp taxes and part or all of the spread between the expected bid and offer side of the market related to the securities comprising the creation basket. The creation transaction fee charged by the Fund in connection with purchases of Creation Units is detailed below. The creation transaction fee listed below for the Fund is current as of the date of this SAI and is subject to change. In addition to this fee, the Fund may also charge up to a 2% variable fee on the creation of Creation Units.

Redemption Transaction Fees

The Fund imposes fees in connection with the redemption of Creation Units. These fees may vary based upon various facts-based circumstances, including, but not limited to, the composition of the securities included in the Creation Unit or the countries in which the transactions are settled. The price received for each Creation Unit will equal the daily NAV per share of the Fund times the number of shares in a Creation Unit, minus the fees described above and, if applicable, any operational processing and brokerage costs, transfer fees, stamp taxes and part or all of the spread between the expected bid and offer side of the market related to the securities comprising the redemption basket. Investors who use the services of a broker or other such intermediary in addition to an Authorized Participant to effect a redemption of a Creation Unit may also be assessed an amount to cover the cost of such services. The redemption fee

charged by the Fund will comply with Rule 22c-2 of the 1940 Act which limits redemption fees to no more than 2% of the value of the shares redeemed. The redemption transaction fee charged in connection with redemptions of Creation Units for the Fund is detailed below. The redemption transaction fee listed below for the Fund is current as of the date of this SAI and is subject to change. In addition to this fee, the Fund may also charge up to a 2% variable fee on the redemption of Creation Units.

Suspension of Creations

The SEC has stated its position that an ETF generally may suspend the issuance of Creation Units only for a limited time and only due to extraordinary circumstances, such as when the markets on which the ETF's portfolio holdings are traded are closed for a limited period of time. The SEC has also stated that an ETF could not set transaction fees so high as to effectively suspend the issuance of Creation Units. The Fund will accept all orders for Creation Units that are in good order. Circumstances under which the Fund may not accept a creation order include, but are not limited to: (i) the order is not in proper form; (ii) the purchaser or group of related purchasers, upon obtaining the Creation Units of Fund shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (iii) the required consideration is not delivered; (iv) the acceptance of the Fund Deposit would, in the opinion of the Fund, be unlawful; or (v) there exist circumstances outside the control of the Fund that make it impossible to process orders of Creation Units for all practical purposes. Examples of such circumstances include: acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Fund, the Adviser, the Distributor, DTC, NSCC, the transfer agent, the custodian, any sub-custodian or any other participant in the purchase process; and similar extraordinary events. The Transfer Agent shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of such prospective creator of the rejection of the order of such person. The Trust, the Fund, the Transfer Agent, the custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits, nor shall any of them incur any liability for the failure to give any such notification.

Suspension of Redemptions

An ETF may suspend the redemption of Creation Units only in accordance with Section 22(e) of the 1940 Act. Section 22(e) stipulates that no registered investment company shall suspend the right of redemption, or postpone the date of payment or satisfaction upon redemption of any redeemable security in accordance with its terms for more than seven days after the tender of such security to the company or its agent designated for that purpose for redemption, except (1) for any period (A) during which the NYSE is closed other than customary week-end and holiday closings or (B) during which trading on the NYSE is restricted; (2) for any period during which an

emergency exists as a result of which (A) disposal by the investment company of securities owned by it is not reasonably practicable or (B) it is not reasonably practicable for such company fairly to determine the value of its net assets; or (3) for such other periods as the SEC may by order permit for the protection of security holders of the investment company.

Exceptions to Use of Creation Units

Under Rule 6c-11 of the 1940 Act, ETFs are permitted to sell or redeem individual shares on the day of consummation of a reorganization, merger, conversion, or liquidation. In these limited circumstances, an ETF may need to issue or redeem individual shares and may need to transact without utilizing Authorized Participants.

REGULAR HOLIDAYS

The Fund generally intends to effect deliveries of Creation Units and securities in its portfolio (*“Portfolio Securities”*) on a basis of “T” plus two Business Days (*i.e.*, days on which the NYSE is open). The Fund may effect deliveries of Creation Units and portfolio securities on a basis other than “T” plus two in order to accommodate local holiday schedules, to account for different treatment among non-U.S. and U.S. markets of dividend record dates and ex-dividend dates, or under certain other circumstances. The ability of the Trust to effect in-kind creations and redemptions within two Business Days of receipt of an order in good form is subject, among other things, to the condition that, within the time period from the date of the order to the date of delivery of the securities, there are no days that are holidays in the applicable foreign market. For every occurrence of one or more intervening holidays in the applicable non-U.S. market that are not holidays observed in the U.S. equity market, the redemption settlement cycle will be extended by the number of such intervening holidays. In addition to holidays, other unforeseeable closings in a non-U.S. market due to emergencies may also prevent the Trust from delivering securities within the normal settlement period.

The longest redemption cycle for the Fund is a function of the longest redemption cycle among the countries whose securities comprise the Fund. The securities delivery cycles currently practicable for transferring Portfolio Securities to redeeming investors, coupled with foreign market holiday schedules, will require a delivery process longer than seven calendar days for the Fund in certain circumstances. Although certain holidays may occur on different dates in subsequent years, the number of days required to deliver the redemption proceeds in any given year is not expected to exceed 14 days. The proclamation of new holidays, the treatment by market participants of certain days as “informal holidays” (*e.g.*, days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays, or changes in local securities delivery practices, could affect the information set forth herein at some time in the future.

FEDERAL TAX MATTERS

This section summarizes some of the main U.S. federal income tax consequences of owning shares of the Fund. This section is current as of the date of this SAI. Tax laws and interpretations change frequently, and these summaries do not describe all of the tax consequences to all taxpayers. For example, these summaries generally do not describe your situation if you are a corporation, a non-U.S. person, a broker-dealer, or other investor with special circumstances. In addition, this section does not describe your state, local or foreign tax consequences.

This federal income tax summary is based in part on the advice of counsel to the Fund. The Internal Revenue Service could disagree with any conclusions set forth in this section. In addition, our counsel was not asked to review, and has not reached a conclusion with respect to the federal income tax treatment of the assets to be deposited in the Fund. This may not be sufficient for prospective investors to use for the purpose of avoiding penalties under federal tax law.

As with any investment, prospective investors should seek advice based on their individual circumstances from their own tax advisor.

The Fund intends to qualify annually and to elect to be treated as a regulated investment company under the Internal Revenue Code of 1986, as amended (the “Code”).

To qualify for the favorable U.S. federal income tax treatment generally accorded to regulated investment companies, the Fund must, among other things, (i) derive in each taxable year at least 90% of its gross income from dividends, interest, payments with respect to securities loans and gains from the sale or other disposition of stock, securities or foreign currencies or other income derived with respect to its business of investing in such stock, securities or currencies, or net income derived from interests in certain publicly traded partnerships; (ii) diversify its holdings so that, at the end of each quarter of the taxable year, (a) at least 50% of the market value of the Fund’s assets is represented by cash and cash items (including receivables), U.S. government securities, the securities of other regulated investment companies and other securities, with such other securities of any one issuer generally limited for the purposes of this calculation to an amount not greater than 5% of the value of the Fund’s total assets and not greater than 10% of the outstanding voting securities of such issuer, and (b) not more than 25% of the value of its total assets is invested in the securities (other than U.S. government securities or the securities of other regulated investment companies) of any one issuer, or two or more issuers which the Fund controls which are engaged in the same, similar or related trades or businesses, or the securities of one or more of certain publicly traded partnerships; and (iii) distribute at least 90% of its investment company taxable income (which includes, among other items, dividends, interest and net short-term capital gains in excess of net long-term capital losses) and at least 90% of its net tax-exempt interest income each taxable year. There are certain exceptions for failure to qualify if the failure is for reasonable cause or is *de minimis*, and certain corrective action is taken and certain tax payments are made by the Fund.

As a regulated investment company, the Fund generally will not be subject to U.S. federal income tax on its investment company taxable income (as that term is defined in the Code, but

without regard to the deduction for dividends paid) and net capital gain (the excess of net long-term capital gain over net short-term capital loss), if any, that it distributes to shareholders. The Fund intends to distribute to its shareholders, at least annually, substantially all of its investment company taxable income and net capital gain. If the Fund retains any net capital gain or investment company taxable income, it will generally be subject to federal income tax at regular corporate rates on the amount retained. In addition, amounts not distributed on a timely basis in accordance with a calendar year distribution requirement are subject to a nondeductible 4% excise tax unless, generally, the Fund distributes during each calendar year an amount equal to the sum of (1) at least 98% of its ordinary income (not taking into account any capital gains or losses) for the calendar year, (2) at least 98.2% of its capital gains in excess of its capital losses (adjusted for certain ordinary losses) for the one-year period ending October 31 of the calendar year, and (3) any ordinary income and capital gains for previous years that were not distributed during those years. In order to prevent application of the excise tax, the Fund intends to make its distributions in accordance with the calendar year distribution requirement. A distribution will be treated as paid on December 31 of the current calendar year if it is declared by the Fund in October, November or December with a record date in such a month and paid by the Fund during January of the following calendar year. Such distributions will be taxable to shareholders in the calendar year in which the distributions are declared, rather than the calendar year in which the distributions are received.

Subject to certain reasonable cause and *de minimis* exceptions, if the Fund fails to qualify as a regulated investment company or failed to satisfy the 90% distribution requirement in any taxable year, the Fund would be taxed as an ordinary corporation on its taxable income (even if such income were distributed to its shareholders) and all distributions out of earnings and profits would be taxed to shareholders as ordinary income.

DISTRIBUTIONS

Dividends paid out of the Fund's investment company taxable income are generally taxable to a shareholder as ordinary income to the extent of the Fund's earnings and profits, whether paid in cash or reinvested in additional shares. However, certain ordinary income distributions received from the Fund may be taxed at capital gains tax rates. In particular, ordinary income dividends received by an individual shareholder from a regulated investment company such as the Fund are generally taxed at the same rates that apply to net capital gain, *provided* that certain holding period requirements are satisfied and provided the dividends are attributable to qualifying dividends received by the Fund itself.

The Fund will provide notice to its shareholders of the amount of any distributions that may be taken into account as a dividend, which is eligible for the capital gains tax rates. The Fund cannot make any guarantees as to the amount of any distribution, which will be regarded as a qualifying dividend.

Income from the Fund may also be subject to a 3.8% "Medicare tax." This tax generally applies to net investment income if the taxpayer's adjusted gross income exceeds certain threshold amounts, which are \$250,000 in the case of married couples filing joint returns and \$200,000 in the case of single individuals.

A corporation that owns shares generally will not be entitled to the dividends received deduction with respect to many dividends received from the Fund because the dividends received deduction is generally not available for distributions from regulated investment companies. However, certain ordinary income dividends on shares that are attributable to qualifying dividends received by the Fund from certain domestic corporations may be reported by the Fund as being eligible for the dividends received deduction.

Distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss), if any, properly reported as capital gain dividends are taxable to a shareholder as long-term capital gains, regardless of how long the shareholder has held Fund shares. An election may be available to you to defer recognition of the gain attributable to a capital gain dividend if you make certain qualifying investments within a limited time. You should talk to your tax advisor about the availability of this deferral election and its requirements. Shareholders receiving distributions in the form of additional shares, rather than cash, generally will have a tax basis in each such share equal to the value of a share of the Fund on the reinvestment date. A distribution of an amount in excess of the Fund's current and accumulated earnings and profits will be treated by a shareholder as a return of capital which is applied against and reduces the shareholder's basis in his or her shares. To the extent that the amount of any such distribution exceeds the shareholder's basis in his or her shares, the excess will be treated by the shareholder as gain from a sale or exchange of the shares.

Shareholders will be notified annually as to the U.S. federal income tax status of distributions, and shareholders receiving distributions in the form of additional shares will receive a report as to the value of those shares.

SALE OR EXCHANGE OF FUND SHARES

Upon the sale or other disposition of shares of the Fund, which a shareholder holds as a capital asset, such a shareholder may realize a capital gain or loss, which will be long-term or short-term, depending upon the shareholder's holding period for the shares. Generally, a shareholder's gain or loss will be a long-term gain or loss if the shares have been held for more than one year.

Any loss realized on a sale or exchange will be disallowed to the extent that shares disposed of are replaced (including through reinvestment of dividends) within a period of 61 days beginning 30 days before and ending 30 days after disposition of shares or to the extent that the shareholder, during such period, acquires or enters into an option or contract to acquire, substantially identical stock or securities. In such a case, the basis of the shares acquired will be adjusted to reflect the disallowed loss. Any loss realized by a shareholder on a disposition of Fund shares held by the shareholder for six months or less will be treated as a long-term capital loss to the extent of any distributions of long-term capital gain received by the shareholder with respect to such shares.

TAXES ON PURCHASE AND REDEMPTION OF CREATION UNITS

If a shareholder exchanges securities for Creation Units the shareholder will generally recognize a gain or a loss. The gain or loss will be equal to the difference between the market

value of the Creation Units at the time and the shareholder's aggregate basis in the securities surrendered and the Cash Component paid. If a shareholder exchanges Creation Units for securities, then the shareholder will generally recognize a gain or loss equal to the difference between the shareholder's basis in the Creation Units and the aggregate market value of the securities received and the Cash Redemption Amount. The Internal Revenue Service, however, may assert that a loss realized upon an exchange of securities for Creation Units or Creation Units for securities cannot be deducted currently under the rules governing "wash sales," or on the basis that there has been no significant change in economic position.

NATURE OF FUND INVESTMENTS

Certain of the Fund's investment practices are subject to special and complex federal income tax provisions that may, among other things, (i) disallow, suspend or otherwise limit the allowance of certain losses or deductions; (ii) convert lower taxed long-term capital gain into higher taxed short-term capital gain or ordinary income; (iii) convert an ordinary loss or a deduction into a capital loss (the deductibility of which is more limited); (iv) cause the Fund to recognize income or gain without a corresponding receipt of cash; (v) adversely affect the time as to when a purchase or sale of stock or securities is deemed to occur; and (vi) adversely alter the characterization of certain complex financial transactions.

FUTURES CONTRACTS AND OPTIONS

The Fund's transactions in futures contracts and options will be subject to special provisions of the Code that, among other things, may affect the character of gains and losses realized by the Fund (*i.e.*, may affect whether gains or losses are ordinary or capital, or short-term or long-term), may accelerate recognition of income to the Fund and may defer Fund losses. These rules could, therefore, affect the character, amount and timing of distributions to shareholders. These provisions also (a) will require the Fund to mark-to-market certain types of the positions in its portfolio (*i.e.*, treat them as if they were closed out), and (b) may cause the Fund to recognize income without receiving cash with which to make distributions in amounts necessary to satisfy the 90% distribution requirement for qualifying to be taxed as a regulated investment company and the distribution requirements for avoiding excise taxes.

INVESTMENTS IN CERTAIN NON-U.S. CORPORATIONS

If the Fund holds an equity interest in any "passive foreign investment companies" ("*PFICs*"), which are generally certain non-U.S. corporations that receive at least 75% of their annual gross income from passive sources (such as interest, dividends, certain rents and royalties or capital gains) or that hold at least 50% of their assets in investments producing such passive income, the Fund could be subject to U.S. federal income tax and additional interest charges on gains and certain distributions with respect to those equity interests, even if all the income or gain is timely distributed to its shareholders. The Fund will not be able to pass through to its shareholders any credit or deduction for such taxes. The Fund may be able to make an election that could ameliorate these adverse tax consequences. In this case, the Fund would recognize as ordinary income any increase in the value of such PFIC shares, and as ordinary loss any decrease

in such value to the extent it did not exceed prior increases included in income. Under this election, the Fund might be required to recognize in a year income in excess of its distributions from PFICs and its proceeds from dispositions of PFIC stock during that year, and such income would nevertheless be subject to the distribution requirement and would be taken into account for purposes of the 4% excise tax (described above). Dividends paid by PFICs are not treated as qualified dividend income.

BACKUP WITHHOLDING

The Fund may be required to withhold U.S. federal income tax from all taxable distributions and sale proceeds payable to shareholders who fail to provide the Fund with their correct taxpayer identification number or fail to make required certifications, or who have been notified by the Internal Revenue Service that they are subject to backup withholding. Corporate shareholders and certain other shareholders specified in the Code generally are exempt from such backup withholding. This withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability.

NON-U.S. SHAREHOLDERS

U.S. taxation of a shareholder who, as to the United States, is a nonresident alien individual, a non-U.S. trust or estate, a non-U.S. corporation or non-U.S. partnership ("*non-U.S. shareholder*") depends on whether the income of the Fund is "effectively connected" with a U.S. trade or business carried on by the shareholder.

In addition to the rules described in this section concerning the potential imposition of withholding on distributions to non-U.S. persons, distributions to non-U.S. persons that are "financial institutions" may be subject to a withholding tax of 30% unless an agreement is in place between the financial institution and the U.S. Treasury to collect and disclose information about accounts, equity investments, or debt interests in the financial institution held by one or more U.S. persons or the institution is resident in a jurisdiction that has entered into such an agreement with the U.S. Treasury. For these purposes, a "financial institution" means any entity that (i) accepts deposits in the ordinary course of a banking or similar business; (ii) holds financial assets for the account of others as a substantial portion of its business; or (iii) is engaged (or holds itself out as being engaged) primarily in the business of investing, reinvesting or trading in securities, partnership interests, commodities or any interest (including a futures contract or option) in such securities, partnership interests or commodities. This withholding tax is also currently scheduled to apply to the gross proceeds from the disposition of securities that produce U.S. source interest or dividends. However, proposed regulations may eliminate the requirement to withhold on payments of gross proceeds from dispositions.

Distributions to non-financial non-U.S. entities (other than publicly traded non-U.S. entities, entities owned by residents of U.S. possessions, non-U.S. governments, international organizations, or non-U.S. central banks), will also be subject to a withholding tax of 30% if the entity does not certify that the entity does not have any substantial U.S. owners or provide the name, address and TIN of each substantial U.S. owner. This withholding tax is also currently scheduled to apply to the gross proceeds from the disposition of securities that produce U.S. source

interest or dividends. However, proposed regulations may eliminate the requirement to withhold on payments of gross proceeds from dispositions.

Income Not Effectively Connected. If the income from the Fund is not “effectively connected” with a U.S. trade or business carried on by the non-U.S. shareholder, distributions of investment company taxable income will generally be subject to a U.S. tax of 30% (or lower treaty rate), which tax is generally withheld from such distributions.

Distributions of capital gain dividends and any amounts retained by the Fund which are properly reported by the Fund as undistributed capital gains will not be subject to U.S. tax at the rate of 30% (or lower treaty rate) unless the non-U.S. shareholder is a nonresident alien individual and is physically present in the United States for more than 182 days during the taxable year and meets certain other requirements. However, this 30% tax on capital gains of nonresident alien individuals who are physically present in the United States for more than the 182 day period only applies in exceptional cases because any individual present in the United States for more than 182 days during the taxable year is generally treated as a resident for U.S. income tax purposes; in that case, he or she would be subject to U.S. income tax on his or her worldwide income at the graduated rates applicable to U.S. citizens, rather than the 30% U.S. tax. In the case of a non-U.S. shareholder who is a nonresident alien individual, the Fund may be required to withhold U.S. income tax from distributions of net capital gain unless the non-U.S. shareholder certifies his or her non-U.S. status under penalties of perjury or otherwise establishes an exemption. If a non-U.S. shareholder is a nonresident alien individual, any gain such shareholder realizes upon the sale or exchange of such shareholder’s shares of the Fund in the United States will ordinarily be exempt from U.S. tax unless the gain is U.S. source income and such shareholder is physically present in the United States for more than 182 days during the taxable year and meets certain other requirements.

Distributions from the Fund that are properly reported by the Fund as an interest-related dividend attributable to certain interest income received by the Fund or as a short-term capital gain dividend attributable to certain net short-term capital gain income received by the Fund may not be subject to U.S. federal income taxes, including withholding taxes when received by certain non-U.S. investors, provided that the Fund makes certain elections and certain other conditions are met.

In addition, capital gain distributions attributable to gains from U.S. real property interests (including certain U.S. real property holding corporations) will generally be subject to United States withholding tax and will give rise to an obligation on the part of the non-U.S. shareholder to file a United States tax return.

Income Effectively Connected. If the income from the Fund is “effectively connected” with a U.S. trade or business carried on by a non-U.S. shareholder, then distributions of investment company taxable income and capital gain dividends, any amounts retained by the Fund which are properly reported by the Fund as undistributed capital gains and any gains realized upon the sale or exchange of shares of the Fund will be subject to U.S. income tax at the graduated rates applicable to U.S. citizens, residents and domestic corporations. Non-U.S. corporate shareholders may also be subject to the branch profits tax imposed by the Code. The tax consequences to a non-U.S. shareholder entitled to claim the benefits of an applicable tax treaty may differ from those

described herein. Non-U.S. shareholders are advised to consult their own tax advisors with respect to the particular tax consequences to them of an investment in the Fund.

CAPITAL LOSS CARRYFORWARD

Net capital gains of the Fund that are available for distribution to shareholders will be computed by taking into account any applicable capital loss carryforward.

OTHER TAXATION

Fund shareholders may be subject to state, local and foreign taxes on their Fund distributions. Shareholders are advised to consult their own tax advisors with respect to the particular tax consequences to them of an investment in the Fund.

DETERMINATION OF NET ASSET VALUE

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Net Asset Value.”

The per share net asset value of the Fund is determined by dividing the total value of the securities and other assets, less liabilities, by the total number of shares outstanding. Market value prices represent last sale or official closing prices from a national or foreign exchange (*i.e.*, a regulated market) and are primarily obtained from third party pricing services. Under normal circumstances, daily calculation of the net asset value will utilize the last closing price of each security held by the Fund at the close of the market on which such security is principally listed. In determining net asset value, portfolio securities for the Fund for which accurate market quotations are readily available will be valued by the Fund accounting agent as follows:

(1) Common stocks and other equity securities listed on any national or foreign exchange other than NASDAQ and the London Stock Exchange Alternative Investment Market (“AIM”) will be valued at the last sale price on the business day as of which such value is being determined. Securities listed on NASDAQ or AIM are valued at the official closing price on the business day as of which such value is being determined. If there has been no sale on such day, or no official closing price in the case of securities traded on NASDAQ and AIM, the securities are valued at the midpoint between the most recent bid and ask prices on such day. Portfolio securities traded on more than one securities exchange are valued at the last sale price or official closing price, as applicable, on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities.

(2) Securities traded in the OTC market are valued at the midpoint between the bid and asked price, if available, and otherwise at their closing bid prices.

In addition, the following types of securities will be valued as follows:

(1) Fixed income securities with a remaining maturity of 60 days or more will be valued by the fund accounting agent using a pricing service. When price quotes are not available, fair value is based on prices of comparable securities.

(2) Fixed income securities maturing within 60 days are valued by the Fund accounting agent on an amortized cost basis.

The value of any portfolio security held by the Fund for which market quotations are not readily available will be determined by Amplify Investments in a manner that most fairly reflects fair market value of the security on the valuation date, based on a consideration of all available information.

Certain securities may not be able to be priced by pre-established pricing methods. Such securities may be valued by the Board of Trustees or its delegate at fair value. These securities generally include but are not limited to, restricted securities (securities which may not be publicly sold without registration under the 1933 Act) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of Fund net asset value (as may be the case in foreign markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, does not reflect the security's "fair value." As a general principle, the current "fair value" of an issue of securities would appear to be the amount, that the owner might reasonably expect to receive for them upon their current sale. A variety of factors may be considered in determining the fair value of such securities. The SEC adopted Rule 2a-5 under the 1940 Act, which is expected to go into effect on March 8, 2021. Rule 2a-5 addresses a board's valuation policies and the role of the board with respect to the fair value of a fund's investments. It further provides requirements for determining fair value in good faith under the 1940 Act. It is expected that the Fund will be required to comply with the requirements of Rule 2a-5 by September 8, 2022.

Valuing the Fund's investments using fair value pricing will result in using prices for those investments that may differ from current market valuations. Use of fair value prices and certain current market valuations could result in a difference between the prices used to calculate the Fund's net asset value and the prices used in secondary market transactions.

Because foreign markets may be open on different days than the days during which a shareholder may purchase the shares of the Fund, the value of the Fund's investments may change on the days when shareholders are not able to purchase the shares of the Fund.

The Fund may suspend the right of redemption for the Fund only under the following unusual circumstances: (i) when the NYSE is closed (other than weekends and holidays) or trading is restricted; (ii) when trading in the markets normally utilized is restricted, or when an emergency

exists as determined by the SEC so that disposal of the Fund's investments or determination of its net assets is not reasonably practicable; or (iii) during any period when the SEC may permit.

DIVIDENDS AND DISTRIBUTIONS

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Dividends, Distributions and Taxes."

General Policies. Dividends from net investment income of the Fund, if any, are declared and paid at least annually. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Trust may make distributions on a more frequent basis. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of the Fund as a regulated investment company or to avoid imposition of income or excise taxes on undistributed income.

Dividends and other distributions of Fund shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Fund.

Dividend Reinvestment Service. No reinvestment service is provided by the Trust. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Fund for reinvestment of their dividend distributions. Beneficial Owners should contact their brokers in order to determine the availability and costs of the service and the details of participation therein. Brokers may require Beneficial Owners to adhere to specific procedures and timetables. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole shares of the Fund purchased in the secondary market.

MISCELLANEOUS INFORMATION

Counsel. Chapman and Cutler LLP, 320 South Canal Street, Chicago, Illinois 60606, is counsel to the Trust.

Independent Registered Public Accounting Firm. Cohen & Company, Ltd., 342 North Water Street, Suite 830, Milwaukee, Wisconsin 53202, serves as the Fund's independent registered public accounting firm. The firm audits the Fund's financial statements and performs other related audit services.

PERFORMANCE INFORMATION

To obtain the Fund's most current performance information, please call (855) 267-3837 or visit the Fund's website at www.amplifyetfs.com. From time to time, the Fund's performance information, such as yield or total return, may be quoted in advertisements or in communications to present or prospective shareholders. Performance quotations represent the Fund's past

performance and should not be considered as representative of future results. The Fund will calculate its performance in accordance with the requirements of the rules and regulations under the 1940 Act, as they may be revised from time to time.

FINANCIAL STATEMENTS

The Fund has not yet commenced investment operations; therefore, financial information is not available at this time.

EXHIBIT A - PROXY VOTING GUIDELINES

EGAN-JONES PROXY SERVICES STANDARD PROXY VOTING PRINCIPLES AND GUIDELINES

Egan-Jones Proxy Voting Principles

Introduction

Our Proxy Voting Principles serve as the background for our Proxy Voting Guidelines, which, in turn, act as general guidelines for the specific recommendations that we make with respect to proxy voting. It is important to recognize that such principles are not intended to dictate but guide. Certain of the principles may be inappropriate for a given company, or in a given situation. Additionally, the principles are evolving and should be viewed in that light. Our principles are and will be influenced by current and forthcoming legislation, rules and regulations, and stock exchange rules. Examples include:

- the Sarbanes-Oxley Act of 2002 and implementing rules promulgated by the U.S. Securities & Exchange Commission
- revised corporate governance listing standards of the New York Stock Exchange and resulting SEC rules
- corporate governance reforms and subsequent proposed rule filings made with the SEC by The NASDAQ Stock Market, Inc. and resulting SEC rules

In general:

- Directors should be accountable to shareholders, and management should be accountable to directors.
- Information on the Company supplied to shareholders should be transparent.
- Shareholders should be treated fairly and equitably according to the principle of one share, one vote.

Principles

A. Director independence

It is our view that:

- A two-thirds majority of the board should be comprised of independent directors.
- Independent directors should meet alone at regularly scheduled meetings, no less frequently than semi-annually, without the Chief Executive Officer or other non-independent directors present.
- When the Chairman of the Board also serves as the Company's Chief Executive Officer, the board should designate one independent director to act as a leader to coordinate the activities of the other independent directors.
- Committees of the board dealing with the following responsibilities should consist only of independent directors: audit, compensation, nomination of directors, corporate governance, and compliance.
- No director should serve as a consultant or service provider to the Company.
- Director compensation should be a combination of cash and stock in the Company, with stock constituting a significant component.

In our opinion, an independent director, by definition, has no material relationship with the Company other than his or her directorship. This avoids the potential for conflict of interest. Specifically such director:

- should not have been employed by the Company or an affiliate within the previous five years.

- should not be the founder of the Company.
- should not be a director of the Company serving in an ex officio capacity.
- should not be a member of the Company’s Board of Directors for 10 years or more, however, a director who is a diverse nominee may be exempted from this rule on the case-by-case basis.
- should have no services contract regarding such matters as aircraft rental contract, real property lease or similar contract with the Company or affiliate, or with a member of the Company’s senior management or provide legal or consulting services to the Company within the previous three years.
- should not be employed by a public company at which an executive officer of the Company serves as a director, and thereby be part of an interlocking relationship.
- should not be a member of the *immediate family* (spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone other than domestic employees who share such person’s home) of any person described above.
- a director who receives, or whose immediate family member receives, more than \$120,000 per year in *direct compensation* (base salary plus cash bonus) from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent until three years after he or she ceases to receive more than \$120,000 per year in such compensation.
- a director who is an executive officer or an employee, or whose immediate family member is an executive officer, of another company (other than a utility) or non-profit organization that makes payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million, or 2% of the recipient company’s consolidated gross revenues, is not “independent” until three years after falling below such threshold. However, the existence of a credit agreement between a bank and the Company shall not affect the independence of a director who is an executive of that bank within the previous three years.

B. Board operating procedures

- The board should adopt a written statement of its governance principles, and regularly re-evaluate them.
- Independent directors should establish performance criteria and compensation incentives for the Chief Executive Officer, and regularly review his or her performance against such criteria. Such criteria should align the interests of the CEO with those of shareholders, and evaluate the CEO against peer groups.
- The independent directors should be provided access to professional advisers of their own choice, independent of management.
- The board should have a CEO succession plan, and receive periodic reports from management on the development of other members of senior management.
- Directors should have access to senior management through a designated liaison person.
- The board should periodically review its own size, and determine the appropriate size.

C. Requirements for individual directors

We recommend that:

- The board should provide guidelines for directors serving on several Boards addressing competing commitments.
- The board should establish performance criteria for itself and for individual directors regarding director attendance, preparedness, and participation at meetings of the board and of committees of

the board, and directors should perform satisfactorily in accordance with such criteria in order to be re-nominated.

D. Shareholder rights

- A simple majority of shareholders should be able to amend the Company’s bylaws, call special meetings, or act by written consent.
- “Greenmail” should be prohibited.
- Shareholder approval should be required to enact or amend a “poison pill” (i.e., “shareholder rights”) plan
- Directors should be elected annually.
- The board should ordinarily implement a shareholder proposal that is approved by a majority of proxy votes.
- Shareholders should have effective access to the director nomination process.

Egan-Jones Proxy Voting Guidelines

Consistent with the above-listed principles, the proxy voting guidelines outlined below are written to guide the specific recommendations that we make to our clients. Ordinarily, we do not recommend that clients ABSTAIN on votes; rather, we recommend that they vote FOR or AGAINST proposals (or, in the case of election of directors, that they vote FOR ALL nominees, AGAINST the nominees, or that they WITHHOLD votes for certain nominees). In the latter instance, the recommendation on our report takes the form ALL, EXCEPT FOR and lists the nominees from whom votes should be withheld.

Whether or not the guideline below indicates “case-by-case basis,” every case is examined to ensure that the recommendation is appropriate.

Board Of Directors

Election of Directors in Uncontested Elections

Case-by-case basis, examining composition of board and key board committees, attendance history, corporate governance provisions and takeover activity, long-term company financial performance relative to a market index, directors’ investment in the Company, etc.

WITHHOLD votes from nominees who:

- are affiliated outside directors and sit on the Audit, Compensation, or Nominating committees.
- are inside directors and sit on the Audit, Compensation, or Nominating committees.
- are inside directors and the Company does not have Audit, Compensation, or Nominating committees.
- attend less than 75 percent of the board and committee meetings. Participation by phone is acceptable.
- ignore a shareholder proposal that is approved by a majority of the shares outstanding.
- ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years.
- fail to act on takeover offers where the majority of the shareholders have tendered their shares.
- implement or renew a “dead-hand” or modified “dead-hand” poison pill.
- sit on more than five other public boards.
- serve as both Chairmen of the Board and CEOs and the Company receives a poor Board Score.
- serve as CEOs and hold more than one outside public directorship.

- serve as Chairmen of the Board and hold more than one outside public directorship.
- sit on the existing board, which has failed to respond adequately to a say-on-pay vote in which the majority of votes cast voted AGAINST.
- sit on the existing board, which has implemented a less frequent say-on-pay vote than the frequency option which received a majority of votes cast in the previous frequency vote.

Underperforming Board Policy

WITHHOLD votes from Compensation Committee members in cases when the Company obtains a questionable score on the Egan-Jones compensation rating model.

WITHHOLD votes from Compensation Committee members in cases when the Company's Compensation Plans (Cash Bonus Plan or Stock Option Plan) receive an "AGAINST" recommendation from Egan-Jones.

Board Accountability

Case-by-case basis for the following:

- Evidence or belief of failure of the board to properly account and prepare for risk (i.e. carbon or cyber issues)
- A low board score, coupled with poor performance
- Legal or ethical problems in the Company or its management

In cases in which the Company has engaged in the practice commonly referred to as "options backdating," Egan-Jones may recommend that votes be withheld from nominees serving on the Company's compensation committee, the Company's entire board of directors, and/or its chief executive officer. Such recommendations will be made on a case-by-case basis, taking into consideration such matters as intent of the individuals involved, scope and timing of the practice, significance of financial restatement required, and corrective action taken.

Furthermore, we may recommend withholding votes from either members of the Company's compensation committee, its entire board of directors and/or its chief executive officer where the Company has engaged in what we judge to be other unsatisfactory compensation practices. Considerations may include such factors as "pay-for-failure" executive severance provisions, change-in-control payments which are either excessive or which are not tied to loss of job or significant reduction in duties, excessive executive perquisites, unjustified changes in the performance standards applied to performance-based compensation, and executive compensation out of proportion to performance of the Company.

FOR responsible shareholder proposals calling for the Company to name as directors only those who receive a majority of shareholder votes.

Separating Chairman and CEO

FOR shareholder proposals requiring that positions of Chairman and CEO be held separately.

Independent Directors

FOR shareholder proposals asking that a two-thirds majority of directors be independent.

FOR shareholder proposals asking that the board's Audit, Compensation, and/or Nominating committees be composed exclusively of independent directors.

FOR shareholder proposals that the Chairman OR lead director be independent when the Company obtains a questionable score on the Egan-Jones director independence rating. AGAINST in all other cases.

Stock Ownership Requirements

AGAINST shareholder proposals requiring directors to own a minimum amount of company stock in order to qualify as a director or to remain on the board.

Term Limits

AGAINST shareholder proposals to limit tenure of outside directors.

Age Limits

AGAINST shareholder proposals to impose a mandatory retirement age for outside directors.

Director and Officer Indemnification and Liability

Case-by-case basis on management proposals regarding director and officer indemnification and liability, using Delaware law as the standard.

AGAINST management proposals to eliminate entirely directors and officers liability for monetary damages for violating the duty of care.

AGAINST management indemnification proposals that would expand coverage beyond legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness.

FOR only those management proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if (1) the director was found to have acted in good faith and in a manner that he or she reasonably believed was in the best interests of the company, and (2) only if the director's legal expenses would be covered.

Charitable Contributions

AGAINST shareholder proposals regarding disclosure of charitable contributions.

Political Contributions

AGAINST shareholder proposals regarding disclosure of political contributions.

FOR management proposals regarding approval of political contributions.

Lobbying Expenditures

AGAINST shareholder proposals for disclosure of lobbying expenditures.

Proxy Contests and Other Contested Elections

Election of Directors in Contested Elections

Case-by-case basis for voting for directors in contested elections, considering long-term financial performance of the target company relative to its industry, management's track record, background to the proxy contest, qualifications of director nominees on both slates, evaluation of what each side is offering shareholders as well as likelihood that proposed objectives and goals will be met, and stock ownership positions.

FOR plurality voting standard in contested elections.

Reimbursement of Proxy Solicitation Expenses

Case-by-case basis for shareholder proposals for reimbursement of proxy solicitation expenses. FOR reimbursing proxy solicitation expenses where EGAN-JONES recommends in favor of the dissidents.

Auditors

Ratifying Auditors

FOR management proposals to ratify appointment of independent auditor unless:

- Auditor obtains a questionable score on the Egan-Jones Auditor Rating Model which takes into account a number of factors including but not limited to:
 - Auditor rotation every seven years
 - Non-audit fees exceeding 50% of total fees
 - Significant and material disciplinary actions taken against the Company's Auditor

- Auditor has a financial interest in or association with the Company, and is therefore not independent; or there is reason to believe that the independent auditor has rendered an opinion which is neither accurate nor indicative of the Company's financial position.

Proxy Contest Defenses

Classified Board vs. Annual Election

AGAINST management proposals to classify the board.

FOR shareholder proposals to repeal ("de-stagger") classified boards and to elect all directors annually.

Removal of Directors

AGAINST management proposals that provide that directors may be removed only for cause.

FOR shareholder proposals to restore shareholder ability to remove directors with or without cause.

CASE-BY-CASE basis for shareholder proposal to remove a director, usually AGAINST unless there are compelling reasons to remove a director or a director does not fulfill Egan-Jones criteria examining independence, meetings attendance, other board memberships, then in such cases FOR.

AGAINST management proposals that provide that only continuing directors may elect replacements to fill board vacancies.

FOR shareholder proposals that permit shareholders to elect directors to fill board vacancies.

Cumulative Voting

FOR management proposals to eliminate cumulative voting.

AGAINST shareholder proposals to provide for cumulative voting.

Calling Special Meetings

AGAINST management proposals to restrict or prohibit shareholder ability to call special meetings.

FOR shareholder proposals to allow a shareholder holding a 25% or greater interest to call a special shareholder meeting.

Acting by Written Consent

Case by case for management proposals to restrict or prohibit shareholder ability to take action by written consent.

FOR shareholder proposals to allow or make easier shareholder action by written consent.

Altering Size of the Board

FOR management proposals to fix the size of the board.

AGAINST management proposals that give management the ability to alter size of the board without shareholder approval.

Tender Offer Defenses

"Poison Pills"

FOR shareholder proposals that ask the Company to submit its "poison pill" for shareholder ratification.

Case-by-case basis for shareholder proposals to redeem a company's existing "poison pill."

Case-by-case basis for management proposals to ratify a "poison pill."

Fair Price Provisions

Case-by-case basis for adopting fair price provisions, considering vote required to approve the proposed acquisition, vote required to repeal the fair price provision, and mechanism for determining the fair price.

AGAINST fair price provisions with shareholder vote requirements greater than a majority of disinterested shares.

“Greenmail”

FOR proposals to adopt anti-“greenmail” charter or bylaw amendments or otherwise restrict the company’s ability to make “greenmail” payments.

Case-by-case basis for anti-“greenmail” proposals which are bundled with other charter or bylaw amendments.

“Pale Greenmail”

Case-by-case basis for restructuring plans that involve the payment of pale greenmail.

Unequal Voting Rights

AGAINST dual-class exchange offers and dual-class recapitalizations.

Supermajority Requirement to Amend Charter or Bylaws

AGAINST management proposals to require a supermajority shareholder vote to approve charter and bylaw amendments.

FOR shareholder proposals to lower supermajority shareholder vote requirements for charter and bylaw amendments.

Supermajority Requirement to Approve Mergers

AGAINST management proposals to require a supermajority shareholder vote to approve mergers and other significant business combinations.

FOR shareholder proposals to lower supermajority shareholder vote requirements for mergers and other significant business combinations.

Placement of Equity with “White Squire”

FOR shareholder proposals to require approval of “blank check preferred stock” issues for other than general corporate purposes.

Other Governance Proposals

Confidential Voting

FOR shareholder proposals that request that the company adopt confidential voting, use independent tabulators, and use independent inspectors of election as long as the proposals include clauses for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents do not agree, the confidential voting policy is waived.

FOR management proposals to adopt confidential voting.

Equal Access

AGAINST shareholder proposals that would allow significant company shareholders equal access to management’s proxy material in order to evaluate and propose voting recommendations on proxy proposals and director nominees, and in order to nominate their own candidates to the board.

Proxy Access

FOR binding shareholder proxy access proposals considering the following criteria:

- 0.5% ownership threshold
- Number of board members that may be elected - cap of 1/3 of board or minimum 2 nominees, if the board size is being lowered the calculation is based upon the original board size, if it is being increased the calculation would be based upon the original board size, with each new slot added to the total, so two plus six if six new board positions are being created
- We prefer no limit or caps on the number of shareowners in the nominations group

- Loaned securities will count towards total
- We prefer that all participants affirm that they intend to be “long term shareholders” of the company with at least 6 month ownership duration requirement
- Proposals with no re-nominations restrictions are preferred

Bundled Proposals

Case-by-case basis for bundled or “conditioned” proxy proposals. Where items are conditioned upon each other, examine benefits and costs. AGAINST in instances when the joint effect of the conditioned items is not in shareholders’ best interests. FOR if the combined effect is positive.

Shareholder Advisory Committees

Case-by-case basis for shareholder proposals establishing a shareholder advisory committee.

Capital Structure

Common Stock Authorization

AGAINST management proposals increasing the number of authorized shares of the class of stock that has superior voting rights in companies that have dual-class capitalization structures.

AGAINST management proposals to increase the number of authorized shares of common stock, or equivalents, that exceeds the maximum amount indicated by Egan-Jones model without any specified legitimate purpose.

FOR management proposals to increase the number of authorized shares of common stock, or equivalents, that does not exceed the maximum amount indicated by Egan-Jones model or are targeted for a specified legitimate purpose.

Case-by-case basis on other such management proposals considering the specified purposes of the proposed increase, any explanation of risks to shareholders of failing to approve the request, potential dilution, and recent track record for using authorized shares, in which case judgment is applied to weigh such factors. Factors which are normally weighed in making such judgments include prior performance of the issuer, changes within the industry, relative performance within the industry, client preferences and overall good corporate governance. In general, we view the authorization of additional common shares to be ordinary and necessary and in the best long-term interests of the issuer and its shareholders.

Stock Distributions: Splits and Dividends

FOR management proposals to increase common share authorization for a stock split, provided that the increase in authorized shares would not result in an excessive number of shares available for issuance, considering the industry and company’s returns to shareholders.

Reverse Stock Splits

FOR management proposals to implement a reverse stock split when the number of shares will be proportionately reduced to avoid delisting.

Case-by-case basis on management proposals to implement a reverse stock split that do not proportionately reduce the number of shares authorized for issuance.

Preferred Stock

AGAINST management proposals authorizing creation of new classes of “blank check preferred stock” (i.e., classes with unspecified voting, conversion, dividend distribution, and other rights).

FOR management proposals to authorize preferred stock in cases where the Company specifies the voting, dividend, conversion, and other rights of such stock and the terms are reasonable.

Case-by-case basis on management proposals to increase the number of “blank check preferred shares” after analyzing the number of preferred shares available for issuance considering the industry and Company’s returns to shareholders.

“Blank Check Preferred Stock”

FOR shareholder proposals to have placements of “blank check preferred stock” submitted for shareholder approval, except when those shares are issued for the purpose of raising capital or making acquisitions in the normal course.

FOR management proposals to create “blank check preferred stock” in cases when the Company specifically states that the stock will not be used as a takeover defense.

Adjustments to Par Value of Common Stock

FOR management proposals to reduce the par value of common stock.

Preemptive Rights

Case-by-case basis on shareholder proposals that seek preemptive rights, considering size of the company and shareholder characteristics.

Debt Restructurings

Case-by-case basis on management proposals to increase number of common and/or preferred shares and to issue shares as part of a debt restructuring plan, considering dilution, any resulting change in control.

FOR management proposals that facilitate debt restructurings except where signs of self-dealing exist.

Share Repurchase Programs

FOR management proposals to institute open-market share repurchase plans in which all shareholders may participate on equal terms.

Tracking Stock

Case-by-case basis for management proposals for creation of tracking stock, considering the strategic value of the transaction vs. adverse governance changes, excessive increases in authorized stock, inequitable distribution method, diminution of voting rights, adverse conversion features, negative impact on stock option plans, and other alternatives, such as spin-offs.

Stock buybacks

Case-by-case on management proposals requesting stock buybacks. AGAINST in cases when the Company receives a poor Board or Compensation score. FOR otherwise.

Compensation of Officers and Directors

Compensation of Officers and Directors

FOR compensation plans that result in an amount of dilution (or the equivalent value in cash) that is less than the total amount suggested by Egan-Jones compensation rating model’s maximum dilution function as determined by the Company’s compensation rating.

AGAINST compensation plans that result in an excess amount of dilution (or the equivalent value in cash) that is more than the total amount suggested by Egan-Jones compensation rating model’s maximum dilution function as determined by the Company’s compensation rating.

AGAINST compensation plans involving “pay for failure,” such as excessively long contracts, guaranteed compensation, excessive severance packages, or other problematic practice not accounted for in the Egan-Jones compensation rating.

Case-by-case (but generally FOR) plans that are completely “decoupled” from the CEOs compensation and thus have no impact on the CEO’s current or future total compensation.

Advisory Votes on Executive Compensation (“Say-on-Pay”)

Case-by-case basis on advisory votes on executive compensation (“Say-on-Pay”), based on the score obtained by the Company in Egan-Jones Compensation Rating. AGAINST a non-binding compensation advisory vote when the Company obtains a questionable score on the Egan-Jones Compensation Rating model, FOR otherwise.

Relative Compensation is based upon a number of quantitative and qualitative metrics which produce a final score that is both forward looking and based upon the prior performance metrics of the company's wealth creation and market capitalization as compared to the CEO's total compensation package. Higher wealth creation, market capitalization and lower CEO compensation all contribute to a higher score in this rating. Additional qualitative measures such as 162m compliance, executive pension plan status and other relevant factors are then used to calculate the final score.

Advisory Votes Regarding Frequency of Advisory Votes on Executive Compensation

FOR management proposals that recommend that advisory votes on executive compensation take place annually.

AGAINST management proposals that recommend that advisory votes on executive compensation take place every two years or triennially.

AGAINST shareholder proposals regarding advisory vote on directors' compensation.

Management Proposals Seeking Approval to Re-price Options

Case-by-case basis on management proposals seeking approval to re-price options.

Director Compensation

Case-by-case basis on stock-based plans for directors.

Employee Stock Purchase Plans

Case-by-case basis on employee stock purchase plans.

Amendments that Place a Maximum Limit on Annual Grants or Amend Administrative Features

FOR plans that amend shareholder-approved plans to include administrative features or place maximum limit on annual grants that any participant may receive to comply with the provisions of Section 162(m) of the Omnibus Budget Reconciliation Act (OBRA).

Amendments to Added Performance-Based Goals

FOR amendments to add performance goals to existing compensation plans to comply with the provisions of Section 162(m) of OBRA.

Amendments to Increase Shares and Retain Tax Deductions under OBRA

Case-by-case basis on amendments to existing plans to increase shares reserved and to qualify the plan for favorable tax treatment under the provisions of Section 162(m).

Approval of Cash or Cash & Stock Bonus Plans

Case-by-case basis on cash or cash & stock bonus plans to exempt compensation from taxes under the provisions of Section 162(m) of OBRA.

Limits on Director and Officer Compensation

FOR shareholder proposals requiring additional disclosure of officer and director compensation.

Case-by-case basis for all other shareholder proposals seeking limits on officer and director compensation.

"Golden Parachutes" and "Tin Parachutes"

FOR shareholder proposals to have "golden and tin parachutes" submitted for shareholder ratification.

Case-by-case basis on proposals to ratify or cancel "golden or tin parachutes."

Employee Stock Ownership Plans (ESOPs)

FOR proposals that request shareholder approval in order to implement an ESOP or to increase authorized number of shares for existing ESOPs, except in cases when the number of shares allocated to the ESOP is "excessive" (i.e., greater than five percent of outstanding shares).

401(k) Employee Benefit Plans

FOR proposals to implement a 401(k) savings plan for employees.

State of Incorporation

State Takeover Statutes

Case-by-case basis on proposals to opt in or out of state takeover statutes (including control share acquisition statutes, control share cash-out statutes, freeze-out provisions, fair price provisions, stakeholder laws, poison pill endorsements, severance pay and labor contract provisions, anti-“greenmail” provisions, and disgorgement provisions).

Reincorporation Proposals

Case-by-case basis on proposals to change the Company’s state of incorporation.

Business Combinations and Corporate Restructurings

Mergers and Acquisitions

Case-by-case basis on mergers and acquisitions, considering projected financial and operating benefits, offer price, prospects of the combined companies, negotiation process, and changes in corporate governance.

Corporate Restructuring

Case-by-case basis on corporate restructurings, including minority squeeze-outs, leveraged buyouts, spin-offs, liquidations, and asset sales.

Spin-offs

Case-by-case basis on spin-offs, considering tax and regulatory advantages, planned use of proceeds, market focus, and managerial incentives.

Asset Sales

Case-by-case basis on asset sales, considering impact on the balance sheet and working capital, and value received.

Liquidations

Case-by-case basis on liquidations considering management’s efforts to pursue alternatives, appraisal value, and compensation for executives managing the liquidation.

Appraisal Rights

FOR providing shareholders with appraisal rights.

Mutual Fund Proxies

Election of Directors

Case-by-case basis for election of directors, considering board structure, director independence, director qualifications, compensation of directors within the fund and the family of funds, and attendance at board and committee meetings.

WITHHOLD votes for directors who:

- are interested directors and sit on key board committees (Audit or Nominating committees)
- are interested directors and the company does not have one or more of the following committees: Audit or Nominating.
- attend less than 75 percent of the board and committee meetings. Participation by phone is acceptable.
- ignore a shareholder proposal that is approved by a majority of shares outstanding.

- ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years
- serve as Chairman but are not independent (e.g. serve as an officer of the fund's advisor)

Converting Closed-end Fund to Open-end Fund

Case-by-case basis for conversion of closed-end fund to open-end fund, considering past performance as a closed-end fund, market in which the fund invests, measures taken by the board to address the market discount, and past shareholder activism, board activity, and votes on related proposals.

Proxy Contests

Case-by-case basis on proxy contests, considering past performance, market in which fund invests, and measures taken by the board to address issues raised, past shareholder activism, board activity, and votes on related proposals.

Investment Advisory Agreements

Case-by-case basis on investment advisory agreements, considering proposed and current fee schedules, fund category and investment objective, performance benchmarks, share price performance relative to that of peers; and magnitude of any fee increase.

New Classes or Series of Shares

FOR creating new classes or series of shares.

Preferred Stock Authorization

Case-by-case basis for authorization for or increase in preferred shares, considering financing purpose and potential dilution for common shares.

1940 Act Policies

Case-by-case basis for 1940 Act policies, considering potential competitiveness, regulatory developments, current and potential returns, and current and potential risk.

Changing a Fundamental Restriction to a Non-fundamental Restriction

Case-by-case basis on changing fundamental restriction to non-fundamental restriction, considering fund's target investments, reasons for change, and projected impact on portfolio.

Changing Fundamental Investment Objective to Non-fundamental

AGAINST proposals to change the fund's fundamental investment objective to non-fundamental.

Name Rule Proposals

Case-by-case basis for name rule proposals, considering the following factors: political/economic changes in target market; bundling with quorum requirements or with changes in asset allocation, and consolidation in the fund's target market.

Disposition of Assets, Termination, Liquidation

Case-by-case basis for disposition of assets, termination or liquidation, considering strategies employed, company's past performance, and terms of liquidation.

Charter Modification

Case-by-case basis for changes to the charter, considering degree of change, efficiencies that could result, state of incorporation, and regulatory standards and implications.

Change of Domicile

Case-by-case basis for changes in state of domicile, considering state regulations of each state, required fundamental policies of each state; and the increased flexibility available.

Change in Sub-classification

Case-by-case basis for change in sub-classification, considering potential competitiveness, current and potential returns, risk of concentration, and industry consolidation in the target industry.

Authorizing Board to Hire and Terminate Sub-advisors without Shareholder Approval

AGAINST authorizing the board to hire and terminate sub-advisors without shareholder approval.

Distribution Agreements

Case-by-case basis for approving distribution agreements, considering fees charged to comparably sized funds with similar objectives, proposed distributor's reputation and past performance, and competitiveness of fund in industry.

Master-Feeder Structure

FOR establishment of a master-feeder structure.

Changes to Charter

Case-by-case basis for changes to the charter, considering degree of change implied by the proposal, resulting efficiencies, state of incorporation, and regulatory standards and implications.

Mergers

Case-by-case basis for proposed merger, considering resulting fee structure, performance of each fund, and continuity of management.

Advisory Vote on Merger Related Compensation

AGAINST "golden parachutes" which are abusive,

- such as those that exceed 3x of the cash severance or
- if the cash severance multiple is greater than 2.99x or
- contain tax gross-ups or
- provide for accelerated vesting of equity awards, (however, pro-rata vesting of awards based on past service is acceptable) or
- are triggered prior to completion of the transaction or
- if the payouts are not contingent on the executive's termination.

Miscellaneous Shareholder Proposals

Independent Directors

FOR shareholder proposals asking that a three-quarters majority of directors be independent.

FOR shareholder proposals asking that board's Audit, Compensation, and/or Nominating committees be composed exclusively of independent directors.
