SIMPLIFY YOUR THEMATIC INVESTMENT APPROACH

MVPS is a core thematic ETF investing in the themes and stocks considered most popular as determined by U.S. ETF ownership data. MVPS seeks investment results that correspond generally to the ETF All-Stars Thematic Composite Index.

REASONS TO INVEST

- 1 **Access** to a diversified basket of global companies most widely owned by thematic ETFs.
- 2 **Disciplined:** MVPS utilizes an objective methodology that follows a transparent rules-based process (rebalanced monthly).
- 3 **Dynamic:** The portfolio of stocks dynamically adapts to the ever-changing ETF landscape and investor sentiment.
- 4 **Core Strategy:** We believe this provides investors with an anchor allocation to thematic exposure within portfolios.

SELECTION METHODOLOGY

MVPS harnesses the growth and transparency of thematic ETFs to establish a consensus view on which companies best align with popular investment themes based on publicly available ETF ownership data.

The initial universe is established by identifying all companies held by ETFs in a qualifying thematic universe.

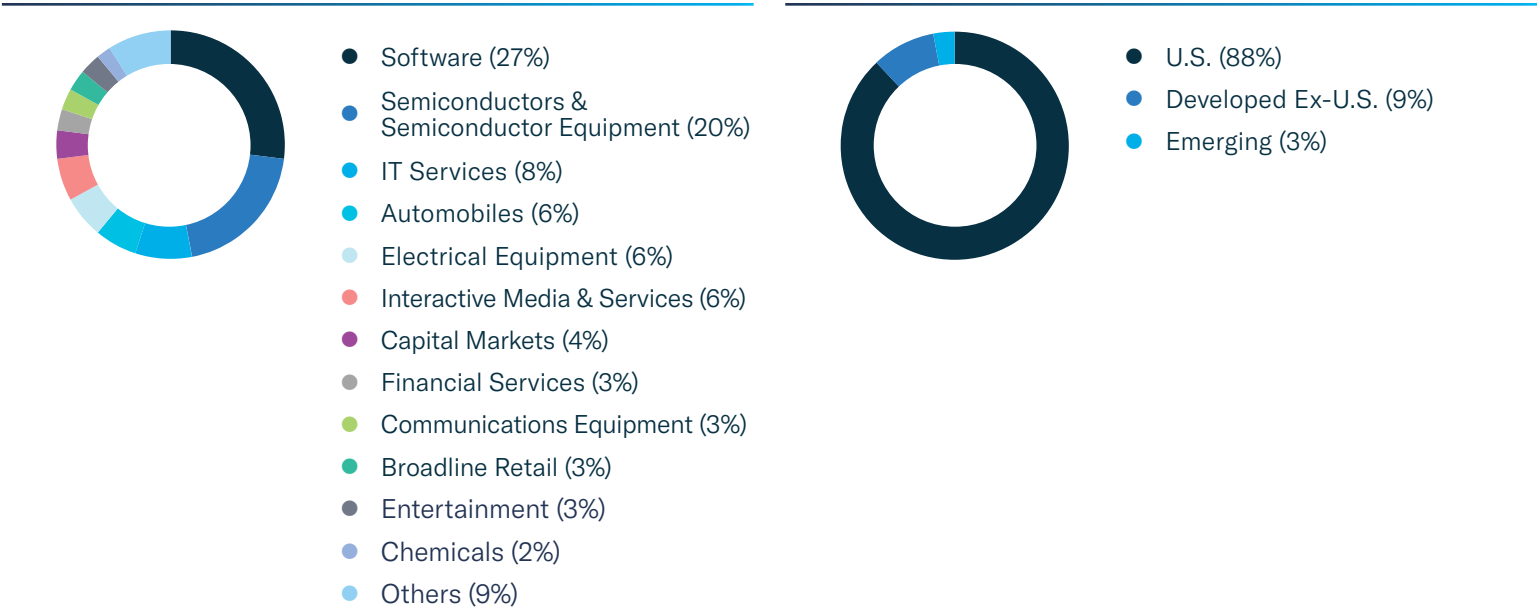

- Disruptive Technology
- Evolving Consumer
- FinTech
- Health Care Innovation
- Industrial Revolution
- Sustainability
- Multi-Theme

Of the companies in this initial universe, an ownership consensus rating¹ for each eligible company is calculated.

The Thematic All-Stars are determined as those companies in the top 75% of this ownership consensus rating.

Carefully consider the Fund's investment objectives, risks, charges, and expenses before investing. This and other information can be found in the Fund's statutory and summary prospectuses, which may be obtained at amplifyetfs.com. Read the prospectus carefully before investing.

Investing involves risk, including the possible loss of principal. The Fund is not actively managed. The Fund invests in securities included in its Index regardless of their investment merit.

The Fund is susceptible to potential operational risks through breaches in cybersecurity. Small and/or mid-capitalization companies may be more vulnerable to adverse general market or economic developments, and their securities may be less liquid and may experience greater price volatility than larger, more established companies as a result of several factors, including limited trading volumes, products or financial resources, management inexperience and less publicly available information. Accordingly, such companies are generally subject to greater market risk than larger, more established companies. Securities

issued by non-U.S. companies present risks beyond those of securities of U.S. issuers.

Amplify Investments LLC serves as the Investment Adviser and Toroso Investments, LLC serves as Sub-Adviser to the Fund. Amplify ETFs are distributed by Foreside Fund Services, LLC.
