

STBQ

Amplify Stablecoin Technology ETF

Innovative Companies & Crypto Assets Powering Stablecoins

STBQ tracks a professionally constructed index that blends equities and cryptocurrencies driving the new stablecoin economy. By targeting companies and crypto assets with significant stablecoin-driven revenue, innovation, or infrastructure impact, STBQ aims to provide a streamlined, high-conviction approach to participating in this emerging digital asset frontier. The Fund seeks investment results that closely correspond (before fees and expenses) to the performance of the MarketVector™ Stablecoin Technology Index.

Reasons to Invest

Attractive Growth Opportunity: Stablecoins are transforming global finance—processing over \$9 trillion annually with an 87% year-over-year growth rate. The stablecoin market size has reached \$300 billion, and analysts expect it will exceed \$3.7 trillion by 2030.¹

Institutional & Regulatory Validation: Large financial services companies have integrated stablecoins into core payment systems, while U.S. and EU regulations (GENIUS Act, MiCA) provide clear frameworks — positioning stablecoins as the compliant backbone of digital finance.

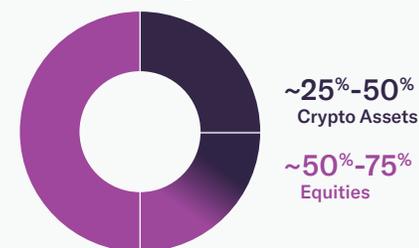

Targeted Exposure to the Stablecoin Ecosystem: As stablecoins become integral to payments, remittances, and global digital finance, STBQ provides diversified exposure to companies and crypto assets powering stablecoins, including issuers, platforms, infrastructure providers, exchanges, and select tokens.

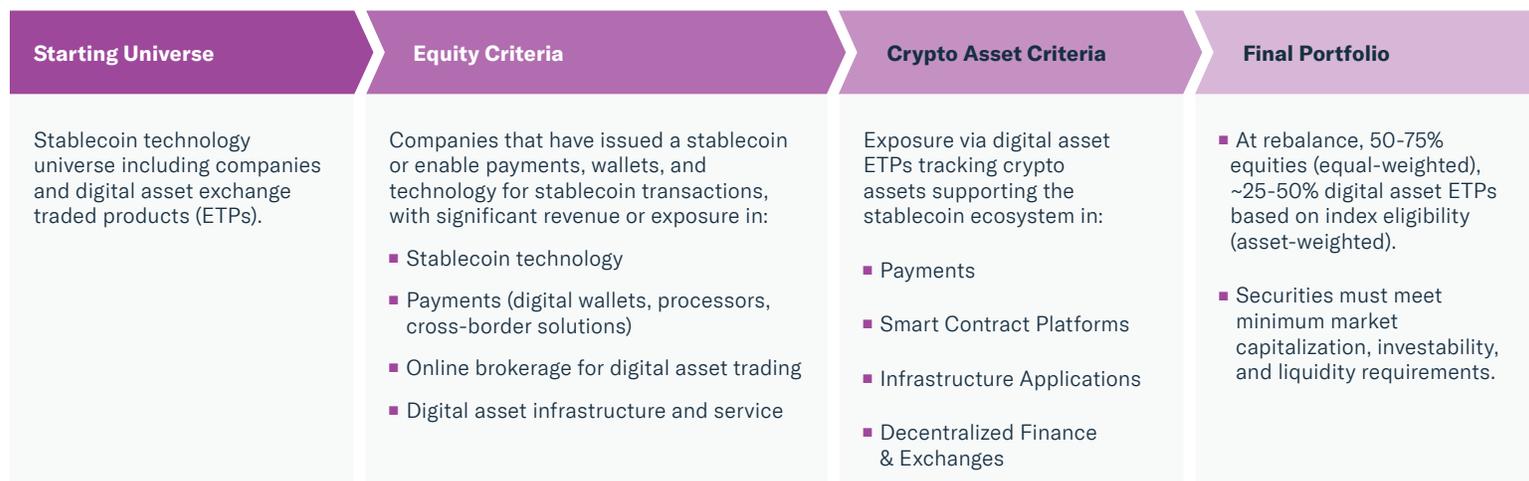

The Fund does not invest directly in digital assets.

MarketVector Stablecoin Technology Index Methodology

Stablecoins are digital assets designed for price stability relative to fiat currency or similar reference assets. Stablecoins rival the world's largest payment networks in transaction volume.

Stablecoins are one of the cheapest ways to send a dollar - in less than 1 second for less than 1 cent

PAYMENT PRODUCTS IN THE U.S.

Payment Type	Credit card payment	Debit card payment	ACH	International wire transfer	Remittance service	Peer-to-peer payment app	Stablecoin transfer
Transaction Fee	2 - 3% + \$0.30	Durbin: 0.05% + \$0.21 Non-Durbin: 0.9% + \$0.15	\$0.20 - \$1.50	\$30 - \$50	6.65% (for \$200)	Free (p2p) 1-3% (business)	< \$0.01
Time to Settle	Instant to merchant	Instant to merchant	3 - 5 business days	1 - 5 business days	Minutes to days	Instant to 1 day	< 1 second

¹ Stablecoin Payments Hit \$9 Trillion in 2025, Rivaling Global Giants Like PayPal and Visa: A16z, Crypto News, 2025, Visualized: Stablecoin Market Size Forecast into 2030 Visual Capitalist, 2025.

Carefully consider the Fund's investment objectives, risks, charges, and expenses before investing. This and other information can be found in the Fund's statutory and summary prospectuses, which may be obtained at [AmplifyETFs.com](https://www.amplifyetfs.com). Read the prospectus carefully before investing.

Investing involves risk, including the possible loss of principal. There is no guarantee the investment strategy will be successful. The Fund is considered to be non-diversified.

The Fund employs a "passive management" or indexing investment approach that seeks investment results that correspond (before fees and expenses) generally to the performance of its underlying index.

Investments focused on stablecoins and digital assets are more volatile than broadly diversified portfolios. Stablecoin technology may not deliver expected returns and faces risks such as theft, cybersecurity, competition, and regulatory uncertainty. The Fund may invest in foreign securities, which carry additional risks.

The Fund may have indirect exposure to cryptocurrencies through other investment vehicles but does not invest directly in Bitcoin, Ethereum, XRP, or Solana. Cryptocurrency investments are highly speculative, subject to extreme volatility, and uncertain tax treatment.

The Fund's return may not match or achieve a high degree of correlation with the return of the Index. To the extent the Fund utilizes a sampling approach, it may experience tracking error to a greater extent than if the Fund had sought to replicate the Index.

The MarketVector™ Stablecoin Technology Index is a rules-based index comprised of companies and exchange-traded products (ETPs) that are directly involved in the growth, commercialization, and broader proliferation of stablecoins.

Amplify Investments LLC is the Investment Adviser to the Fund, and Penserra Capital Management serves as the Investment Sub-Adviser.
