AMPLIFY ETFs™

XWNG

Beyond The Launch Pad

THE SPACE OPPORTUNITY EXTENDS BEYOND A SINGLE STOCK

The Amplify Top 10™ Space ETF (XWNG) focuses on market leaders across the space ecosystem from launch and transportation to satellites, communications, space awareness, and space-based data technologies. While market segments may contain dozens of companies, growth and performance are often driven by a much smaller group. As opportunity develops across the space economy, XWNG provides concentrated, high-conviction exposure to a select group of companies positioned at the center of this evolving market.

Company		Description	Weighting (%)
Astroscale	Astroscale Holdings Inc	Space sustainability company focused on orbital servicing and debris removal.	12.12%
filtronic	Filtronic PLC	RF and microwave technologies for satellite communications.	11.87%

Fund holdings as of 8/19/2026 and are subject to change at any time and should not be considered recommendations to buy or sell any security. Weighting reflects stock position and/or position held via total return swaps.

Why A Top 10 Approach To Space?

Focused exposure to companies driving innovation across an emerging technology ecosystem.

Focus On Market Leaders

The companies at the center of the opportunity. Space-related innovation may be driven by a smaller group of companies positioned at the center of the ecosystem.

Not A Single-stock Bet

Multiple potential winners. One portfolio. Gain exposure across several areas of the space industry rather than relying on the outcome of a single company.

Less Dilution

More of the theme. Less of the noise. A concentrated portfolio may help reduce exposure to holdings with less direct ties to the space opportunity.

XWNG focuses on market leaders across the space ecosystem—from launch and transportation to satellite communications, space awareness, and space-based data technologies. The Fund generally invests in companies included in the Bloomberg Top 10 Momentum Space Index, along with other space-related businesses identified by the portfolio management team.

Amplify Top 10™ ETF Difference

Focus on the Companies Driving Opportunities: Amplify Top 10™ ETFs are designed to cut through the noise by focusing on high-conviction companies driving opportunity within a specific market segment.

- Focus on market leaders
- Concentrated exposure without owning just one stock
- Transparent portfolio construction
- Less dilution from hundreds of peripheral holdings
- Designed for markets where leadership narrows

Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in Amplify Funds statutory and summary prospectus, which may be obtained by at AmplifyETFs.com. Read the prospectus carefully before investing.

Investing involves risk, including possible loss of principal. There can be no assurance that a Fund will achieve its investment objective. ETF shares are bought and sold at market price and may trade at a premium or discount to NAV. Brokerage commissions will reduce returns. The Fund's active management strategy may not achieve its intended results and could cause the Fund to underperform other investments or experience losses. The Fund is not an index fund and does not seek to track or replicate the Index. The Fund is non-diversified, invests in a limited number of issuers, and may be more volatile than diversified funds. Companies involved in space-related technologies face risks associated with technological change, launch failures, regulatory developments, government spending priorities, cybersecurity threats, and commercialization challenges. These risks may result in heightened volatility and greater investment risk than more established industries. The Fund may invest in foreign securities, including emerging markets, which are subject to additional political, economic, currency, and liquidity risks. The use of derivatives and swap agreements may increase volatility.

The Bloomberg Top 10 Momentum Space Index is constructed to track the performance of companies driving technological advances and commercialization in the global space industry, including the top 10 companies that are part of the space ecosystem, utilizing data from Bloomberg Intelligence.

Investment Adviser: Amplify Investments LLC; Sub-Adviser: Samsung Asset Management. Amplify ETFs are distributed by Foreside Fund Services, LLC.
