**Carefully consider the Fund's investment objectives, risks, charges, and expenses before investing. This and other information can be found in the Fund's statutory and summary prospectuses, which may be obtained at [AmplifyETFs.com](https://AmplifyETFs.com). Read the prospectus carefully before investing.**

*Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Brokerage commissions will reduce returns.*

*Covered call risk is the risk that the Fund will forgo, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but has retained the risk of loss should the price of the underlying security decline.*

*BITY/BAGY: There is no guarantee the investment strategy will be successful. The Fund is considered to be non-diversified. The Fund is actively managed and its performance reflects the investment decisions that the Adviser makes for the Fund. The Fund faces risks by investing in Bitcoin through*

*the Bitcoin ETP and Bitcoin ETP Options, as bitcoin is a new and highly speculative investment. The market for Bitcoin is volatile and subject to rapid changes, regulatory actions, and numerous challenges to widespread adoption. Issues such as slow transaction processing, variable fees, and price volatility further increase these risks. There is a lack of consensus regarding the regulation of digital assets, including Bitcoin, and their markets. Trading in shares of a Bitcoin ETP on U.S. securities exchanges may be halted due to market conditions or for reasons that, in the view of an exchange, make trading in shares of the Bitcoin ETP inadvisable.*

*BAGY, BITY, TLTP will also utilize FLEX Options as part of its covered call strategy and subject to the risk that the OCC will be unable or unwilling to perform its obligations under the FLEX Options contracts. The Fund currently expects to make distributions on a regular basis, a portion of which may be considered return of capital.*
